EXPLANATION OF SIGNALS.

To announce an alarm from signal box No. 4, the bells will be struck four times. If from box No. 14, the bells will be struck once, and after a pause of five seconds will be struck four times; thus, 1-4. The number of the box will be repeated at intervals of twenty seconds.

BUFFALO

STREET AND AVENUE DIRECTORY.

MAY 1, 1870.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The number on one corner has been given, so that a person wishing to find, say No. 495 MAIN STREET, on consulting the Street Directory, finds that the right hand corner of Main and Mohawk is No. 497, consequently the place he seeks is only a few doors above.

TRADE AND COMMERCE.

HISTORY OF THE BUFFALO BOARD OF TRADE.

A PAPER

READ BEFORE THE BUFFALO BOARD OF TRADE, APRIL 14, 1870.

BY S. S. GUTHRIE, Esq.

GENTLEMEN OF THE BUFFALO BOARD OF TRADE:

Bulwer Lytton, in one of his novels, says: "The desire for something we have not, impels all the energies that keep us in movement for good or ill, according to checks or directions of each favorite desire," and then he goes on to develop the significance of those pregnant words, "little more," "which nobody ever gets, but are the main-spring of civilization, and move, quicken, and energize the world." This desire introduced into the world a problem which man cannot solve; and when every scene was illuminated with God's presence, started our first parents and their descendants on a pilgrimage, limited only by time, and as varied in its developments as the character of men. It was this desire that moved men, in the early ages, to form into warlike tribes and independent clans, and caused them to lead, to some extent, pastoral and commercial lives. I propose, for a few moments, to review man in his commercial life, and it will be my object to gather up, in a hasty, but connected manner, a few of the prominent persons, events and nations from along the course of time, and briefly present the early history of commerce, its preservation and glory.

Among the first who appeared above the world's horizon, away back in those early centuries, was Abraham, the father of many nations, who was called, when purchasing the field and "cave of Macphelah," the "merchant." Further down the history of time we find a certain tribe called Ishmaelites, traders in spices, by caravans from Gilead to Egypt, taking in exchange slaves, as they took a young man called Joseph, who, by a singular providence in the house of a great king,

was made to stand forth, for all time, a most exemplary dealer, warehouseman, and "cornerer of corn."

Centuries rolled on, and in their revolution presented to the world a Moses, who was, as his name indicates, a man of the sea, a leader, a prophet. In the progress of society from an uncivilized to a commercial state, he established markets and made laws for the sale of produce from the interior, and enforced it, as a secondary purpose, that men should appear three times in the year at Jerusalem, to facilitate trade. Following along the history of centuries, there comes into view one of the most wonderful men of all time—King Solomon, whose fame was wafted on every ocean, and who opened up to the whole eastern world a new line of commerce, by his treaty with Hiram, King of Tyre—"the city whose merchants were princes, whose traffickers were the honorable of the earth, heaping up silver as dust, and fine gold as mire of the streets"—and who increased his grandeur and glory by the precious metals of Ophir, the forests of Lebanon, the broidered work and rich apparel of India, and by the horses and chariots of Egypt, giving them in exchange wheat, barley, wine and oil, of which Judea produced an abundance. Ages passed on, clan fought clan, tribe defeated tribe, villages became cities, "and nations began to assume form and press rapidly into power." Among them, and most prominent in extending its influence between the east and the west, and that "traveled along the Mediterranean, planting cities on its coast, and developing its commerce, was Phoenicia. Her civilization is believed to have been hardly surpassed by that of any other ancient country. Her knowledge of navigation and extent of commerce were exhibited most favorably and wonderfully in the history of one of her greatest cities—Carthage. Its unparalleled commercial history continued for six hundred years, bringing iron and amber from the shores of the North Sea and the Baltic; working thousands of her subjects among the gold, silver, copper and tin mines of Spain, and exchanging her superior earthenware, salt and brass for the skins and wools of England. She retained her greatness by the excellency of her political constitution, and taught mankind that it is their ability to live at peace, and that the prosperity of one people is not an injury to another." While thus enjoying her commerce and reaching out her pacific hand, she was checked by the Greeks and Romans, who were systematically invading and making conquest of all the neighboring cities and nations. After subduing Italy they first became prominent, after a long and doubtful contest, by conquering this noble city, prostrating her commerce, and driving her ships from the sea. Now the "Great Roman Empire," which relished more the "crimson hand of war" than the trade of commerce, had swallowed up the glory of Carthage and the East, and become the center of the world, controlling Italy, Spain, Britain, Dalmatia, Macedonia, Asia, Greece, Syria, Phoenicia, Africa and the Mediterranean, with its islands. But her military prowess was ere long to have an end, and her name became, about the fourth century, a by-word and reproach, caused by the corruption and weakness of her own emperors, and the encroachment of the Goths. Though overthrown, her influence continued, and was felt till the fifteenth century, "as a result of her able codes of

laws, well organized domain, and scientific jurisprudence, which had triumphed over the crude barbarian systems, and was silently transferred into the domestic institutions of Europe." After her fall Europe, for centuries, presented a scene of confusion, and but little commercial spirit was to be found. Barbarian governments were again established, but soon to go to ruin, excepting the Franks and Germans, who, about the eighth century, maintained a comparatively permanent dominance, when Charlemagne arose, and the spirit of navigation and commerce revived in the north and south of Europe, and the propagation of Christianity unlocked the more northern and civilized countries, viz.: Denmark, Norway and Sweden, to the trade of the world. During this century Prince Alfred, of England, caused many ships to be built, and let them, with money, out to merchants, who found their way to the East Indies, returning with silks and precious stones. At the opening of the eleventh century, order and regularity among the nations of the earth began to appear more and more, and Christianity to develop liberty, science, art and commerce, all of which were, to some extent, made to pause during the twelfth and thirteenth centuries, by the spirit of the crusades, which engaged, inflamed and called forth all the energies of Europe in a prolonged and most unsuccessful and disastrous cause. As the fourteenth and fifteenth centuries dawned upon the world, increased facilities were given to commerce by the discovery of the art of printing, and the revealing of the mystery of the mariner's compass, which enabled those who "did business on the great waters" to discover and master distant worlds. Here we reach an era in the world's history, when Europe began to present an established political system, a federal community of States, united by a common religion, and by ties of international law. The struggles of Venice and Genoa were over, the influence of the middle ages had ceased, monarchs were nowhere absolute, and under the more modern *regime*, with the new star in the western horizon, commerce started up on the sea and on the land, with increased rapidity. To assist, encourage and develop it, banks, insurance and stock companies, exchanges, etc., were originated, and these, with their varied and diverse interests, demanded places where commercial men, brokers, agents, shippers, traffickers, etc., could meet and confer, transact and dispatch their particular business with convenience and profit. Consequently there originated such places for their assembling as the Collegium Mercantium, at Rome, Venice and Genoa; the Börse in Germany; Bourse in France; the Birza in Russia and Flanders; and the Exchanges in England. Bourse is a name that originated in France, from a noble family, *La Bourse*, which signifies purse, and to whose memory a building was erected in Paris, and on its walls his coat of arms, three purées, was placed. Here the merchants of Paris assembled to transact their business, and do to this day. A Bourse, also, was built at Antwerp, in 1550, to accommodate English merchants who traded there. About this time Queen Elizabeth, of England, had a magnificent Bourse, after the Bourse of Antwerp, erected in London, to relieve its merchants from meeting, as they had been wont to do, without shelter, in Lombard street, to transact their business. She called it the Royal Exchange, and here

English, German, Greek and other foreign merchants met; each had his appropriate place. Hamburg, Madrid, Lisbon, Leghorn, Trieste, Vienna, Smyrna, Odessa and Berlin had like edifices.

As cities increased in number and trade, with the varied interests of merchants and traders, questions and differences arose, which demanded equitable and fixed rules of action for their speedy adjustment—hence was conceived the original Board of Trade of England, established by Cromwell in 1655, who appointed his son Richard, “with many lords of council and merchants of London and other cities, to meet and consider by what means the trade of navigation and commerce of the republic might be promoted.” And Charles II., on his restoration, in 1660, established a commercial council of trade, for keeping control over the whole commerce of the nation, and afterwards a “Board of Trade and Plantations” for adjusting all disputes, and regulating the commercial affairs of the country. It was assailed from time to time, changed, abolished and revived, and is now a bureau of the government, requiring monthly reports of all the products, manufactures, exports, imports, and commercial affairs of the British nation, all of which are published in what is called the “Blue Book;” and by this board the business interests of the nation are more or less governed. It establishes shipping offices, money orders to protect seamen, savings banks for sea-faring men; regulates claims for salvage by vessels of the navy; has improved the life boat establishments on the British coast, and the registry of seamen, and made many other important reforms, which our government would do well, for the interest of commerce, to imitate; and only can, by a separate bureau.

France also adopted in her polity, in 1723, a “Bureau la Commerce,” an office composed of eight persons, experienced in commerce and navigation, where all matters and differences in commerce and navigation are discussed and adjusted.

Let us now turn from Europe to this western world, where, only three hundred and seventy-eight years ago, after many dark forebodings and discouragements, on the twelfth of October, at two o’clock in the morning, amid the firing of cannon, a little band of Genoese, at early sunrise, stepped forth with their commander, Columbus, on to the wild beach, and made it sacred ground by their kisses and tears, accompanied by thanks to the God who guided them safely across untrdden seas. Here, in this our native, our home land, freedom full and overflowing was first promulgated. “Freedom to man from feudalism and despotism of the old world, freedom from countries whose animus was not government for man, but man for government,” freedom to commerce and her sisters, arts, sciences and manufactures, and freedom now, henceforth and forever to worship God as seemeth best in our own sight. Here in this land, in the now great metropolis, in the reign of “George III., 1768, By the grace of God, of Great Britain, France and Ireland, King, a great number of merchants by voluntary agreement did associate themselves for the laudable purposes of promoting trade and commerce of their said province,” and established the first “Chamber of Commerce” on this western continent, which has been nobly sustained for over one hundred years by the most able and honored merchants

of that city, carrying out the spirit of the "preamble in supporting industry, encouraging commerce, and procuring such laws and regulations as may be found necessary for the benefit of trade." It was the pioneer "Chamber" for fifty-three years, when Baltimore, the Monumental City, established a Board of Trade, "which has moved on permanently ever since, and deserves the gratitude of the country for opening the new channel in the Patapsco, by which ships of the largest draft can approach that city, and for establishing a floating school where boys are taught seamanship, and trained to habits of thrift, free of charge." Third in the course of these boards was that organized by the merchants of the "Quaker City" in 1833, and which has done much to promote the commercial interests of the country. This was followed in 1836 by Boston forming its Chamber of Commerce, which has done much for inland and ocean transportation. In 1834, the Chamber of Commerce of New Orleans originated; followed, in 1839, by the Chamber of Commerce of Cincinnati, Queen City of the West, and very properly supported by Buffalo, the Queen City of the Lakes, in 1844, by organizing this Board of Trade. Immediately in the rear of this, came many other Boards of Trade and Chambers of Commerce, viz.: Cleveland, 1847; Albany, 1847; Chicago, 1848; Oswego, 1849; Toledo, 1849; Pittsburg, 1853; Boston and Portland, 1854, etc., differing in name and also somewhat in organization, although substantially agreeing in the principles to which they owe their existence. These were influenced, by the conception of H. P. Bridges (embodied in a resolution of February 28th, 1865, passed by the Detroit Board of Trade, and on a call issued by that Board, May 25th, 1865,) to hold there the first National Board of Trade Convention, July 11th, 1865, which resulted in the organization of the National Board of Trade, at Philadelphia, June, 1868. This holds an annual meeting, "and nearly every Board of Trade, Chamber of Commerce, and similar bodies in the country may become a member." Its mission is productive of good, "and may yet solve the question, how it is possible to obtain truly national legislation on the pressing industrial questions of the day." Let us do all we can to sustain this organization, and it will promote the interests of trade and establish uniform rules for its government. But, without taxing your patience longer here, I proceed to give you, more in detail, the history of our home Board.

The necessity for this organization was deeply impressed on the minds of several of Buffalo's merchants, in the winter of 1844, the most prominent of whom was our esteemed fellow-citizen, R. H. Haywood, Esq., whose object was "to cultivate friendship among the business men of Buffalo, to unite them in one general policy for the general benefit of trade and commerce of Buffalo, and to make it a market for western produce." Mr. Haywood very kindly "proposed, for the purpose of carrying out his project, that if they would form a 'Board of Trade' he would build a room suitable for their meetings on 'Change,' and donate the use of it as long as they might want it for that purpose." Active steps were taken, and the first meeting of which we find any record, (the record then and of thirteen years following being lost,) was held January 16, 1844, at the office of Joy &

Webster, in "Webster Block," to take into consideration the propriety of organizing a "Board of Trade," at which time Messrs. J. L. Kimberly, S. Purdy, Philo Durfee, R. C. Palmer and William Williams, (druggist,) were appointed a committee to "draw up a constitution and by-laws, and report." They were presented and adopted, the thirtieth day of January, 1844.

March 11, 1844.—The third meeting was held, and Mr. R. H. Haywood, who had conceived the idea and made such liberal propositions to sustain it, was honored with the first Presidency; George B. Webster, 1st Vice-President; and William Williams, 2d Vice-President. Directors—Philo Durfee, A. H. Caryl, James Hollister, H. M. Kinne, J. C. Evans, Sidney Shepard, N. Hayden, J. L. Kimberly and George Palmer. John R. Lee, Treasurer; and Giles K. Coats, Secretary.

The Board of Trade was now a fixed fact, and Mr. Haywood, full of zeal and noble generosity, (would that we had more such now,) moved, on the first of September, 1844, agreeable to his promise, to erect what is styled the Merchants' Exchange, on the corner of Hanover and Prime streets, and completed it on the first of May, 1845.

March 10, 1845.—The second election of officers was held, and those who had served the previous year were re-elected.

June 5, 1845.—The Board met for the first time in the new building, and appropriate speeches were made by the President and others.

March 10, 1846.—The third election resulted in the re-election of their faithful President, Mr. Haywood; J. L. Kimberly, 1st Vice-President; H. H. Sizer, 2d Vice-President; and W. Joy, Grosvenor Clark, S. Purdy, William Fiske, G. T. Williams, P. L. Parsons, J. H. Fisher, N. P. Sprague, R. C. Palmer and J. Fleeharty, Directors.

March 13, 1847.—The fourth annual election was held, and our late friend and associate, Henry Daw, a man of warm heart and sensitive nature, was made its President; Oliver Bugbee, 1st Vice-President; John T. Noye, 2d Vice-President. Directors—John Fleeharty, John M. Griffith, Philo Durfee, R. C. Palmer, Samuel F. Pratt, M. S. Hawley, Gibson T. Williams.

March 13, 1848.—Philo Durfee, a man of liberal mind, and the soul of honor, was made its fifth President; George B. Walbridge, 1st Vice-President; Samuel F. Pratt, 2d Vice-President. Directors—R. C. Palmer, J. Fleeharty, S. H. Fish, George Davis, G. S. Hazard, William O. Brown, Elias Weed, D. N. Barney, M. S. Hawley, S. W. Howell.

March 13, 1849.—The sixth election resulted in the selection of George B. Walbridge, a man of remarkable business capacity and noble principles, as President; John Fleeharty, 1st Vice President; Richard Sears, 2d Vice-President. Directors—Jason Parker, R. P. Wilkins, A. W. Cutter, W. A. Fox, William Foote, G. W. Holt, P. S. Marsh, S. Lathrop.

March 13, 1850.—At the regular annual meeting H. E. Howard, whose name is fresh in our memory, and who was esteemed for his independence of character and boldness of speech, was chosen its seventh President; R. C. Palmer, 1st Vice-

President; D. N. Barney, 2d Vice-President. Directors—Dean Richmond, P. L. Sternberg, Charles Hopkins, Samuel J. Holley, J. L. Reynolds, John J. Hollister, Curtiss Mann, B. P. Peckham, H. C. Walker and S. D. Flagg.

March 10, 1851.—Mr. Howard was re-elected President; George W. Tiff, 1st Vice-President; S. H. Fish, 2d Vice-President. Directors—E. O. Gould, G. R. Wilson, M. P. Bush, George Crouse, L. H. Pratt, Hiram Niles, J. S. Johnson, F. W. Patterson, J. D. Sawyer, J. J. Talmadge.

March 8, 1852.—The Board held its regular annual meeting, and chose our genial and enterprising member, S. H. Fish, President; William Foote, 1st Vice-President; J. Harmon, 2d Vice-President. Directors—E. Weed, W. D. Walbridge, P. S. Marsh, G. S. Hazard, C. Hitchcock, J. M. Fish, J. Flecharty, E. Savage, William H. Abell, P. L. Sternberg.

March 13, 1853.—The annual meeting was called and our well known and vivacious townsman, Samuel J. Holley, was elected President; S. Lathrop, 1st Vice-President; E. O. Gould, 2d Vice-President. Directors—William Fleming, E. Weed, Noah P. Sprague, H. C. Walker, Richard Williams, J. A. Hopkins, S. Coye, S. S. Guthrie, J. C. Evans.

March 13, 1854.—The Board had its regular meeting and proceeded to the election of officers, when our thoughtful and experienced member, H. Niles, was made President; G. S. Hazard, 1st Vice-President; P. S. Marsh, 2d Vice-President. Directors—C. D. Gibson, S. Lathrop, D. S. Bennett; S. Coye, Cyrus Clarke, E. O. Gould, H. C. Walker, William H. Abell, William Foote, W. D. Walbridge.

March 12, 1855.—The twelfth annual election was held, and our accomplished and energetic associate, G. S. Hazard, was made President; John G. Deshler, 1st Vice-President; J. S. Johnson, 2d Vice-President. Directors—P. L. Sternberg, William Fleming, Cyrus Clarke, C. Hitchcock, S. Coye, J. Allen, Jr., R. P. Wilkins, S. H. Fish, John Pease, Charles A. Hopkins.

May 6, 1856.—The annual meeting was called, and an election took place, when our now retired, and successful merchant, M. S. Hawley, was made President; J. Parker, 1st Vice-President; W. A. Fox, 2d Vice-President. Directors—H. M. Kinne, S. K. Worthington, S. W. Whiting, D. N. Tuttle, William Fleming, H. A. Smith, O. Bugbee, J. B. Griffin, W. D. Walbridge and Samuel Morgan. During this year, upon consultation, and after much discussion among the members, it was concluded that the original constitution and by-laws were insufficient to meet all the demands of the trade, and that some action should be taken to secure from the State a charter of incorporation, whereupon several of the leading members of the city applied to the legislature in the winter of fifty-six and seven, and the present charter was obtained March 3, 1857, wherein we find as the original incorporators, P. H. Hayward, George Palmer, Jason Parker, J. T. Noye, S. Shepard, H. Rainey, J. C. Evans, G. T. Williams, B. C. Rumsey, William G. Fargo, L. K. Plimpton, G. R. Wilson, H. Roop, M. P. Bush, A. Robinson, H. Niles, H. A. Smith, J. R. Lee, P. L. Sternberg, R. H. Sherman, Carlos Cobb. Under the new act the first meeting for the election of officers was held

March 7, 1857.—Messrs. G. S. Hazard, H. M. Kinne, J. S. Buell, J. S. Johnson, S. S. Jewett, P. P. Pratt, A. W. Cutter, Cyrus Clarke, H. C. Walker, Henry Daw, S. H. Fish, J. M. Hutchinson, were elected Trustees, and they re-elected G. S. Hazard, President; Cyrus Clarke, Vice-President; S. H. Fish, Treasurer; J. J. Henderson, Secretary.

April 12, 1858.—At the annual election the following Trustees were elected: J. D. Sawyer, William B. Mann, C. J. Mann, J. G. Deshler, A. L. Griffen, Jason Parker, Carlos Cobb, S. S. Guthrie, J. R. Bentley, Schuyler Coye, Henry Roop, L. Enos and S. K. Worthington. Whereupon they made our late companion and energetic merchant, J. R. Bentley, President; C. J. Mann, Vice-President, and S. K. Worthington, Treasurer.

April, 1859.—The annual election resulted in making J. R. Bentley, Jason Parker, J. S. Buell, A. L. Griffen, L. Enos, Carlos Cobb, D. S. Bennett, A. Sherwood, H. Daw, S. S. Guthrie, S. K. Worthington, J. D. Sawyer and C. J. Mann, Trustees, and our departed and valued friend, A. Sherwood, President; T. C. Boynton, Secretary; S. K. Worthington, Treasurer.

April, 1860.—There was a regular annual election of Trustees, C. Clarke, S. K. Worthington, S. S. Guthrie, C. J. Mann, A. Sherwood, A. W. Cutter, J. Parker, R. Williams, S. H. Fish, A. L. Griffen, T. C. Boynton, J. R. Bentley, J. D. Sawyer; when our familiar and abiding member, C. J. Mann, was elected President; and J. Parker, Vice-President; T. C. Boynton, Treasurer; H. Wilcox, Secretary.

April 16, 1861.—At the annual election for Trustees, Jason Parker, C. J. Mann, T. C. Boynton, A. W. Cutter, G. S. Hazard, H. Daw, J. R. Bentley, S. H. Fish, J. S. Buell, A. L. Griffen, A. Sherwood, William Stimpson, were chosen, and our true and faithful associate, J. Parker, was chosen President; A. W. Cutter, Vice-President; and H. Wilcox, Treasurer and Secretary.

April 14, 1862.—There was a regular election, when G. S. Hazard, A. D. Daw, C. J. Mann, L. Enos, G. T. Bentley, John H. Vought, S. H. Fish, Oscar Cobb, R. Williams, S. K. Worthington, John Allen, J. B. Griffin, J. D. Sawyer, were elected Trustees, who again honored Mr. Hazard with the office of President; J. B. Griffin, Vice-President; G. T. Bentley, Treasurer; H. Wilcox, Secretary.

April 12, 1863.—The Board of Trustees were elected, viz.: George S. Hazard, S. H. Fish, L. Enos, A. D. Daw, John Allen, J. Parker, J. M. Richmond, E. P. Dorr, A. Sherwood, J. D. Sawyer, J. B. Griffin, J. R. Bentley, S. K. Worthington, when they again exhibited their esteem for Mr. Hazard by making him President; J. B. Griffin, Vice-President; S. K. Worthington, Treasurer; A. D. Daw, Secretary; and William Thurstone, Clerk.

April 12, 1864.—At the annual election of Trustees, G. S. Hazard, H. A. Richmond, O. L. Nims, C. Clarke, A. Sherwood, G. T. Bentley, R. C. Palmer, P. S. Marsh, S. H. Fish, W. T. Graves, A. D. Daw, J. D. Sawyer and J. B. Griffin were elected, and again renewed their confidence in Mr. Hazard by electing him for the fourth time as their President; A. Sherwood, Vice-President; A. D. Daw, Treasurer; William Thurstone, Secretary.

April 11, 1865.—The following persons were made Trustees: S. H. Fish, P. S. Marsh, C. Clarke, E. P. Dorr, J. M. Richmond, G. S. Hazard, J. D. Sawyer, J. B. Griffin, L. Enos, L. K. Plimpton, J. C. Harrison, S. K. Worthington; and they again elected S. H. Fish, President; J. M. Richmond, Vice-President; S. K. Worthington, Treasurer; William Thurstone, Secretary.

April, 1866.—An election for Trustees occurred, and P. S. Marsh, J. M. Richmond, O. L. Nims, A. Sherwood, G. T. Bentley, L. Enos, S. H. Fish, J. D. Sawyer, R. C. Palmer, J. B. Griffin, C. Clarke, E. P. Dorr and F. W. Fiske, were chosen; and they selected our indomitable and energetic P. S. Marsh as President; O. L. Nims, Vice-President; F. W. Fiske, Treasurer; William Thurstone, Secretary.

April 9, 1867.—The annual election took place, and P. S. Marsh, J. H. Vought, A. J. Holt, O. L. Nims, J. B. Griffin, Joseph Carley, E. B. Smith, Walter Avery, R. C. Palmer, G. T. Bentley, F. A. Sears, F. W. Fiske and S. H. Fish, were made Trustees; when they proved their appreciation of Mr. Marsh by again making him President; O. L. Nims, Vice-President; F. W. Fiske, Treasurer; William Thurstone, Secretary.

April 15, 1868.—The annual meeting was called and resulted in the selection of the following Trustees: F. A. Sears, Joseph Carley, J. H. Vought, Charles F. Sternberg, Charles C. McDonald, M. L. Crittenden, W. Avery, James Van Buren, F. C. King, S. S. Brown, Charles G. Curtiss, A. P. Wright and C. A. Sweet; and our cheerful and indefatigable J. H. Vought, President; Joseph Carley, Vice-President; Charles F. Sternberg, Treasurer; William Thurstone, Secretary.

April 13, 1869.—The election of Trustees took place, and O. L. Nims, B. F. Bruce, E. Gallagher, M. N. Jones, George W. Rounds, E. W. Eames, J. C. Anthony, J. B. Griffin, Charles A. Sweet, G. H. Preston, S. S. Guthrie, J. W. Bridgman and M. L. Crittenden were appointed; and I was honored with the Presidency; O. L. Nims, Vice-President; E. W. Eames, Treasurer; William Thurstone, Secretary.

In this review I have not only hastily recalled some of those who, a quarter of a century since, helped to organize this Board, and whom, in part, we find not here, but, with reluctance, I have refreshed your sad memories, by having made mention of our ardent and lovable Cutter; our worthy and unassuming Van Slyke; our quiet, but respected Morgan; our well known and patriotic Plimpton; our positive and true Bentley; all of whom, during the year just closed, have passed from us; and their places are forever made vacant. I have remembered to name many yet with us, and who, by their energies and business experience, give power to this Board, and confirm the proverb that "no class of men, engaged throughout all the varied branches of business, are so noted for their honesty and honor in all their dealings as commercial men." Since the opening of this Board, the far West, which then was almost in its virgin state, has been populated, and the so-called "Great Erie Canal" proved the "highway" for the increasing tide of home and foreign emigration between the Atlantic and this chain of noble lakes, along whose

shores villages were rapidly planted, and many, in turn, became important cities, of which Chicago is the greatest, having then a population of twelve thousand, now three hundred thousand. Then its shipments of wheat were one-and-a-half millions of bushels; no oats, rye or barley; now, of all kinds of grains, sixty-seven millions of bushels. Then its lumber receipts were a few thousand feet annually; now swelled to the aggregate of a thousand millions of feet. Then its pork and beef trade was not enough to encourage statistics; now it reaches the enormous sum of a million and a half head. Then its wool receipts were nothing; now they are over thirteen millions of pounds; but, without taking more time in mentioning all its innumerable articles of commerce and manufactures, which go to make up this immense trade, that has rolled back upon the Empire State with a hundred fold reward, for all its liberality and expenditure in the building of the Erie Canal, I return to Buffalo, which sat here then with twenty-nine thousand people, and now, with one hundred and fifty thousand, perhaps too quietly, to receive and control this mighty commerce from the growing West. Then the annual receipts of wheat and corn were about one-and-a-half millions of bushels, no oats, rye or barley; now they are about fifty millions of bushels, being three times as much as New Orleans and St. Louis, and twice as much as Boston, Baltimore and Philadelphia respectively. Then the receipts of lumber were a trifle; now they are about two hundred and fifty millions of feet, annually. Then the pork and beef receipts were very limited; now they reach a million six hundred thousand head. Then its imports of iron were but a bagatelle; now they are over twenty millions of pounds, and the trade is still in its infancy. Then the receipts of coal were a few tons, comparatively; now they are over three hundred thousand, and increasing with wonderful rapidity. Then its copper trade was nothing; now its export is four millions of pounds. Then the trade with Canada was hardly sufficient to enlist the energies of one live Yankee; now it amounts to several millions of dollars annually, and should be fostered by some wise statesmanship. Gladly would I continue by contrast to show the rapidly increased trade during these twenty-five years, in the unmentioned articles of leather, oils, malting, and in the branches of banking, manufacturing, etc. But most cheerfully I refer you for these and others to the valuable and extended report of our worthy Secretary, William Thurstone, who has, for seven years, served you so faithfully, and to whose kindness I am indebted for many statistics given. I now hasten to show what has been the importance of this organization to this vast, growing trade, and what it has aided to accomplish in cheapening and facilitating transportation; in establishing important rules for the government of our business men in their dealings with one another in furnishing the medium through which the united moral efforts of the energetic and practical merchant have been brought to bear upon the public mind, thus forming public opinion, and promoting generally the interests of Commerce. Let me cite, for example, the adoption of bills of lading, equally protective to shipper and carrier; the establishment of fixed modes and weights for the receiving and delivering of grain, the constant and never-failing appeals by petitions, money and delegations to the legislature, conventions, etc., for the enlargement of the canal, and reduction

of tolls, that this great western trade might not be diverted from its most natural channel; the prompt action taken towards improving the navigation of the Hudson River; the securing of aid from our government, the Canadian government, and several western cities, through our persevering and energetic Col. Fox, for the dredging of the St. Clair Flats, by which several hundred thousand dollars in one season are saved to vessel owners and dealers in lumber and grain; and a new system is introduced into our navigation and harbor improvements, the value of which time will not permit me to compute. Finally, let me recall with what ready patriotism this Board responded to the call of the country at the outbreak of the war. At one time alone twenty thousand dollars were raised for the support of the heroes who left home and friends for the defense of their country; and at all times a cheerful welcome has been given to those noble women "whose feet brought glad tidings to the outcast and forsaken." On every occasion our Board extended its hand to the oppressed at home and abroad, and furthered every measure that helped forward internal improvements, arts and science.

I have taken a hasty retrospect of the first and later efforts of this Board, and would fain enumerate many others, to impress more deeply upon our citizens generally its claims to their kind consideration, which heretofore have been considered so limited that it has not received even a passing notice from Buffalo historians. But time forbids my mentioning more than the events connected with the year just closed. As the Trustees of 1869 entered upon their duty, some of the defects of this organization were discussed, and for wise reasons it was decided to prepare a paper, in which each stockholder of four shares agreed to surrender the privilege of free membership, to which he was legally entitled. The paper was drawn up, and after much labor almost universally signed, thus subjecting each member to the same dues, and giving an opportunity, to any who may desire, of taking what stock they want of the seventy-six thousand dollars not yet taken. The year opened with brighter hopes than those of 1868, and with great rejoicings over the completion of the Atlantic and Pacific Railroad, which unites the two great oceans with bands of iron, and the commerce of the Orient with that of the Occident. But these early hopes were soon blasted by the rapid decline in gold, limited foreign demand for our cereals, and the persistent "high tolls," with corruptions in our canal system, which the efforts of the "Citizen's Association of New York" endeavored to overthrow in a convention held in New York, in October, and to which we appointed as delegates Messrs. Niles, Barclay, Hatch, Case and Bennett. Three of the above named gentlemen attended, and returned with new zeal and full determination to aid in destroying the "Rings" formed in our State for the object of preying upon our commerce and filling their coffers. This New York Convention originated the grand and successful "State Canal Convention," held at Rochester, in January last, and which was largely attended by practical and influential men from all parts of the State, for one purpose, viz.: "a solid, substantial and lasting reform of the great canal system of the State of New York," not by violence or stratagem, but by faithful watchfulness along its line, and urgent appeals to the Legislature in behalf of their own

interest, the State's interest, and the interest of the mighty West, which are calling for "cheap transportation." We cannot but rejoice that, to some extent, these conventions have been influential, viz.: "in the repeal of the contract system, and in encouraging us to fight it out on this line."

During the fall, agreeable to your resolution, I appointed Messrs. Hazard, Marsh and Sawyer delegates to attend, and who ably represented this Board at the National Board of Trade Convention, which met in December, at Richmond, Va. It would give me pleasure to review the interesting proceedings of that convention, and consider some of the important commercial questions that were there so ably discussed and acted upon; but you will find them fully presented in the report issued by its respected Secretary, Mr. Hill, and subject to your call at our Secretary's desk. That Board adjourned to hold its third annual meeting in December next, in this city, when, I feel ready to promise, it will receive a most cordial greeting.

But, gentlemen, already have I taken more of your time than I designed, and, therefore, with a few suggestions, which I think worthy of our consideration and practice, I close.

Let us aim to exclude from this Board every thing like partisanship; to cultivate with care all our social qualities; to quicken and encourage each other in every noble effort; to avoid distinctions in trade; to sympathize one with the other in adversity as well as in prosperity; to be true to our God and our country; and our reward is sure. Now, thanking you for your kind attention, and one and all for your uniform kindness and forbearance during the year just closed, and for the honor conferred upon me at its opening, I most cheerfully present to you my respected friend and successor, Mr. Curtiss. May Wisdom be his teacher; and your roadside flower, true happiness. May your efforts be crowned with success; and while providing ourselves, each with a beautiful home, may we ere long be able, and ready, to aid in the erection of a Home for this Board, which will prove an ornament to our city and an honor to ourselves.

THE BOARD OF TRADE, 1870.

Mr. Guthrie having sketched the history of the Board to the close of his able administration, it may be well to carry his labors a little farther. On the twelfth of April, in the present year, the stockholders of the Board of Trade elected the following Board of Trustees: P. S. Marsh, J. M. Richmond, B. F. Bruce, R. C. Palmer, S. H. Fish, O. L. Nims, John H. Vought, John Allen, Jr., John B. Griffin and Joseph Carley. At a subsequent meeting of Trustees, Charles G. Curtiss, a gentleman of high commercial standing, was elected President; Alfred P. Wright, Vice-President; George W. Townsend, Treasurer; George B. Hibbard, Counsellor, and William Thurstone, Secretary. On the fourteenth the officers were duly installed, and at the close of the address of the retiring President, Mr. Curtiss said:

GENTLEMEN OF THE BOARD OF TRADE:

It is with considerable embarrassment that I appear before you as your newly elected President; and I had almost wished that our esteemed friend who has served you so well, had been the successful candidate; but since it has been your pleasure to confer upon me this honor, I accept it, and return to you my sincere thanks.

Not being accustomed to preside over public bodies of this kind, I have some fears lest, from inexperience, I may not be able to discharge the duties of the position in as able a manner as my honored predecessor has done, and therefore for any errors that I may commit, I ask your kind indulgence.

Gentlemen, this Board of Trade has become, from a small beginning, a body of considerable moment. The influence which it has exerted in bringing about some late changes in the management of the canals, and a probable reduction of tolls, which is of so much consequence to the commercial prosperity of this city, should convince us of its importance, and should stimulate every member to take a renewed and, if possible, a greater interest in its welfare. The channels of trade and commerce, like the channels of streams and rivers, are changing every day, and they are expanding and reaching out, covering objects, projects and enterprises that a few years ago would have been considered wild and chimerical; and, moreover, the commercial organizations of this country are becoming a great power, and that power can be directed toward objects that will not only result in a benefit to the members of such Boards of Trade, but as well to the whole people at large. In fact, we can scarcely comprehend the important position which we occupy as a commercial body, and of the extended good which we are capable of accomplishing for ourselves and for others who are engaged in pursuits connected with our great chain of inland navigation. Such considerations should lead us to attach more weight to this organization than some of us have given it, and should encourage every member to take an earnest and active interest in its success.

At the close of this season's business there is to meet in this city the National Board of Trade. The value and importance of this organization, at this early day of its existence, is scarcely felt, but I believe it can be made the medium through which great good can be achieved for the commercial and industrial interests of our common country, and the time is not far distant when its action will have an influence in shaping national legislation concerning questions that bear upon the business interests of the country, and I therefore deem it of the utmost importance that we give it all the support and encouragement within our power. We have invited them to visit us, and to become our guests, and, gentlemen, I trust that each one of you will give the matter your earnest attention, that we may, by a unanimous effort, afford them a reception that will be worthy of them and ourselves.

Gentlemen, it will be my pleasure, in every possible way, to promote and advance the interests of this Board of Trade; and in doing so, I hope to have your

earnest co-operation. I would like to call your attention to the subject of electing officers of the Board.

From time to time there has been some dissatisfaction expressed by the members of this Board not holding stock, in that they had no voice in voting for officers who preside over the open Board, as the voting for such officers is confined entirely to the stockholders. This arises from the fact that by the terms of our charter these officers are obliged to be elected by and from the trustees. Now, this could be remedied by the members of the open Board selecting from the thirteen trustees annually elected candidates for President and Vice-President, and the candidates so selected to be voted for by *all* the members of the Board, whether stockholders or not, and the same officers, when so elected, could be chosen by the trustees to preside over the affairs of the stockholders, in the same way as they are chosen at the present time. It is obvious that this manner of choosing officers for the open Board would be entirely satisfactory to the non-stockholding members, and at the same time enable us to comply with the terms of the charter, under which the Board is organized.

A GRAND ACHIEVEMENT.

The first practical and important work of the Board, under its new administration, was to secure, at the hands of the Canal Board, a reduction of Canal tolls to the extent of a fraction over three cents a bushel on wheat; within a fraction of one cent on corn; a fraction over six mills on oats; on coal, fifty per cent.; and a liberal reduction on salt, lumber, staves, iron ore and many other articles. For full fifteen years the Buffalo Board of Trade has labored, single-handed, for the reduction of tolls on the Erie Canal; and when, on the fifth of April, 1870, the Committee appointed by the Board, and consisting of Messrs. G. S. Hazard and Alonzo Richmond, appeared before the Canal Board in behalf of the State of New York, and won the concessions we have indicated, they also won glory for the organization they represented, and vitalized anew the great work to which the Empire State is so largely indebted for its prosperity.

THE TRADE AND COMMERCE OF BUFFALO

FOR THE YEAR ENDING DECEMBER 31, 1869,

WITH

COMPARATIVE TABLES AND STATISTICS.

Early in the present year, William Thurstone, Esq., Secretary of the Board of Trade, and Commercial Editor of THE BUFFALO COURIER, commenced the compilation of a statement of the Trade and Commerce of Buffalo for the year ending December 31st, 1869, and on the 31st of March submitted his able report to the Board of Trade. We acknowledge our indebtedness to its pages for nearly all of the statistical matter which follows:

BUFFALO MANUFACTURES.

We had intended, in this issue of the Directory, to touch upon the manufactures of the city, which have begun to assume magnificent proportions; but upon looking over the field we became satisfied that a careful and exhaustive canvass would be necessary, and so the matter stands postponed till our next issue. Meanwhile the United States census may throw some satisfactory light on the subject.

THE PROPERTY OF THE CITY.

The following table shows the City Assessors' valuation of Real and Personal property, in this city, in the years 1864, 1869 and 1870. It should be understood that this valuation does not include property exempt by law from taxation. Real estate owned by the Government, the State, the County and City, Churches, Cemetery Associations; and personal property in the shape of Government Bonds, are exempt, and consequently not included in this valuation:

THE NORMAL SCHOOL.

The following historical sketch of the new Normal School, of this city, is from the BUFFALO COURIER, of Nov. 25, 1869:

"The Legislature of 1866 passed a law directing the location of four Normal schools in the State, one of which was to be in Western New York. The decisions as to the location of these institutions was left in the hands of the State Board of Public Instruction, which is composed of the Governor, Lieutenant Governor, Secretary of State, Comptroller, Treasurer, Attorney General, and Superintendent of Public Instruction; its determination to be made on the strength of the inducements offered by the several places which might bid for the schools. As the State expends twelve thousand dollars annually for the maintenance of each of these schools after it is established, it became an object for localities to secure them. In Western New York the competition was especially active. Buffalo was not behindhand, and several of our leading citizens were active in agitating the matter. The first definite proposition was made by the late Jesse Ketchum, who offered to give to the city as a site for a school, his lot of land bounded by Jersey, York, Thirteenth and Fourteenth streets; the city to give him in return the nominal consideration of four thousand

five hundred dollars, the interest of which he proposed to use for the perpetuation of a charity connected with the public schools. Committees of conference were appointed by the Common Council and Board of Supervisors, and early in November, 1866, the former ordered an issue of bonds of the city to the amount required by Mr. Ketchum, and accepted the land. About the same time the Supervisors voted forty-five thousand dollars for building purposes, and appointed a building committee, consisting of Rev. A. T. Chester, D. D., Oliver G. Steele, Esq., and Hon. N. K. Hall. This committee proceeded to Albany, in company with other gentlemen, and endeavored to secure the location of the Western New York school in Buffalo, but were unsuccessful, the village of Fredonia proving the favorite site. But intimations were made that legislation might be subsequently had agreeable to the wishes of those interested in the project, and in April, 1867, a special act was passed, authorizing the location of a school here.

"In July, 1867, Judge Hall, the Chairman of the Board of Commissioners, resigned, and Dennis Bowen was elected to fill the vacancy. Mr. Steele was made Chairman.

"The Common Council was appealed to for additional funds, and on the sixth of April, 1868, voted forty-five thousand dollars, the same sum given by the county to aid in the erection of the school, making ninety thousand dollars in the hands of the commissioners. The county and city bonds for this amount were negotiated at par, and the money deposited at seven per cent. interest, by which a great saving has been made.

"In June, 1868, the plans for an edifice, like one of these schools, erected in Winona, Minnesota, were substantially adopted, and Mr. J. H. Selkirk selected to make working plans for the building and superintend the erection. In July, 1868, the specifications having been prepared, the Commissioners contracted with Mr. Henry Rumrill to build the school for the sum of seventy thousand dollars. Subsequently Mr. C. S. Chapin was associated with Mr. Rumrill. The work was at once entered upon, and the corner stone laid, with imposing ceremonies, April 15, 1869."

The edifice, which will be brought into use the present year, with its grounds, occupies the entire block, bounded by York, Jersey, Thirteenth and Fourteenth streets. In the clear its dimensions are one hundred and sixty-four feet by eighty-six feet. It is built in the Italian style, with Mansard roof, surmounted by a light iron railing, which imparts a graceful appearance. The material is brick, hollow walls, over a stone basement, faced with roll brick and quoins. The tower fronting on Jersey street, and from which a magnificent view of the city is obtainable, has on its face a tablet, bearing the following inscription:

THE PUBLIC PARK.

The establishment of the Public Park, of this city, was organized by an act of the Legislature, passed April 14th, 1869, and the following gentlemen were elected Park Commissioners: His Honor, the Mayor, *Ex-officio*, Pascal P. Pratt, Sherman S. Jewett, Dexter P. Ramsey, Richard Flach, John Greiner, Jr., James Mooney,

Lewis P. Dayton, John Cronyn, Joseph Warren, Dennis Bowen, Edwin T. Evans and William Dorsheimer. The officers so far elected are: President, Pascal P. Pratt; Secretary, William F. Rogers.

At a meeting of citizens held at the residence of S. S. Jewett, Esq., on the twenty-fifth of August, 1868, the project of a Public Park was first formally discussed. At this meeting Pascal P. Pratt, S. S. Jewett, Richard Flach, Joseph Warren and William Dorsheimer were appointed a committee to present the main outlines of a scheme for establishing such a park, etc. Mr. Dorsheimer, on behalf of the committee, placed himself in communication with the distinguished landscape architect, Frederick Law Olmstead, of New York, who subsequently visited this city, and made an examination of its suburbs with reference to the selection of a proper site. Still later he submitted a formal report, and the following winter a law was passed, as already referred to, authorizing "the selection and location of certain grounds for public parks in the city of Buffalo, and to provide for the maintenance and embellishment thereof."

The Park grounds selected by the Commissioners cover, in the aggregate, about four hundred and ninety-five acres, one hundred and two of which, in accordance with the law, are located east of the line of Jefferson street extended. The name of "The Front" has been given to the grounds at the Fort Porter extremity, and which comprises about twenty-eight acres, lying between Sixth street and the canal, and Vermont and York streets. A small circle of land is also taken at the junction of Massachusetts, Sixth and Niagara, this being the cliff bank overhanging the present Water Works, and an invaluable spot, for the magnificent river and Canadian view it commands. The United States government has granted permission to include Fort Porter and its grounds in "The Front," and by this arrangement about eighty acres have been practically added to the Park. From the York and Sixth street corner of "The Front," a park-way, one hundred feet wide extends, following the broadened line of York street and skirting the Prospect Hill Parks, two in number, and which are incorporated in the grand scheme. From York street the park-way strikes across the junction of North and Rogers streets, where a circle of about six acres in area is to be laid out with trees, gardens, etc. The park-way, from this circle, follows the line of Rogers street. At Bouck avenue we arrive at the westerly of the two plazas, which have an area of about five acres each. From each of these plazas converging park-ways advance to the central circle, laid down in the map as mainly between Clinton and Bird avenues. The circle comprises an area of eight acres, and the park-ways leading from the plazas to this point are two hundred feet wide. From this circle the park-way extends, still in width two hundred feet, to the park proper, which covers about three hundred and twenty-five acres. Through this the Scajaquada Creek flows, and here will be the lake with its numerous islands, cascades, rapids, etc. From the entrance, and the lake, the grounds of the park sweep off in a north-easterly direction. We make our exit from the main park, at its south-easterly extremity, by a park-way two hundred feet in width, which is taken across Main street, at the junction of Steele street, a short distance to the north of the

toll-gate, and sweeps in a noble curve through several pieces of wood till it crosses the creek, and skirts the eastern boundary of the driving park. The park grounds at the east are located on the north of the Best street plank road, and have an area of sixty-two acres. With the next issue of the Directory we hope to be enabled to speak of the Public Park, here faintly outlined, as in an advanced stage of progress.

THE BUFFALO PARK,

Is known as one of the most famous trotting parks in the world. It was incorporated by act of Legislature passed March 30th, 1868, the following gentlemen being named as incorporators: Chandler J. Wells, Myron P. Bush, Cicero J. Hamlin, Rufus L. Howard, Frank Perew, Jewett M. Richmond, John Horter and George B. Gates. The Directors are: Chandler J. Wells, Joseph G. Masten, George B. Gates, Cicero J. Hamlin, Rufus L. Howard, Jewett M. Richmond, James H. Metcalfe and E. A. Buck; and the officers are: President, Chandler J. Wells; Treasurer, D. J. Bowen; Secretary, Lyman B. Smith.

The first season of its incorporation the Park Association gave premiums to the amount of \$20,000; in 1869, \$25,000, and the present year, \$42,000. The best trotting time on record has been made over the Buffalo Park, and the purses have been the largest ever offered in this or any other country.

THE NEW INSANE ASYLUM.

The location of a new Insane Asylum in this city is a fact so fresh in the mind of our citizens, that we content ourselves with giving the names of those to whom its construction has been entrusted. The Trustees are: Dr. John P. Gray, of Utica; Dr. William B. Gould, of Lockport; Hon. Augustus Frank, of Warsaw; Hon. Lorenzo Morris, of Fredonia; Hon. Asher P. Nichols, Hon. A. P. Laning, Dr. James P. White, Joseph Warren, Dennis Bowen and George R. Yaw, of Buffalo. The officers are: President, Dr. James P. White; Secretary, Edward R. Bacon; Treasurer, Henry Martin. The committees are: On By-Laws, Messrs. Nichols, Frank and Gould; on Plans, Drawings and Specifications, Messrs. Gray, White and Bowen; on Improvement of Grounds, Messrs. Warren, Laning and Yaw.

THE INTERNATIONAL BRIDGE.

On the 18th of May of the present year the stockholders of the New York and Canadian Bridge Companies met in this city and agreed upon terms of consolidation, by which the two companies were made "The International Bridge Company." The following officers were elected: President, C. J. Brydges, Montreal; Vice President, E. G. Spaulding, Buffalo; Secretary and Treasurer, Joseph Hickson, Montreal; Solicitor and Counsellor in Canada, John Bell, Bellville, Ontario.

Attorney and Counsel in the United States, E. C. Sprague, Buffalo; Engineer, E. P. Hanneford.

The location of the bridge will be at Black Rock, and the contract provides for its completion for railroad and carriage traffic, and for foot-passengers, before the close of the year 1871.

RAILROADS.

As we write, the Erie Railway Company are making the necessary surveys for a branch of their line from this city to Niagara Falls; the extension of the Buffalo & Washington Railway promises to be a realized fact, and the Buffalo Creek Railroad is progressing finely. The officers of this road are: President, James Adams; Vice President, J. A. B. Campbell; Secretary, James N. Scatcherd.

The Junction Railroad, which was organized under the provisions of the act to authorize the formation of Railroad Companies, &c., is soon to be constructed from the New York Central and Hudson River Railroad, intersecting the same between Clinton and William streets in the city of Buffalo, and passing easterly and north-easterly of the Public Park to the Buffalo & Niagara Falls branch of the same railroad north of Cornelius Creek, in the city, and also intersecting said railroad at or near the Black Rock station. The length of the road as near as the same can be estimated is seven miles, and the amount of capital stock \$250,000. The Directors are: James Tillinghast, Albert P. Laning, Myron P. Bush, Joseph Warren, Henry A. Richmond, Solomon Drillard, William Williams, of Buffalo; Cornelius Vanderbilt, Charles H. Kerner, Samuel McLaughlin, Joseph Harker, J. H. Vanderbilt, of New York, and William H. Grimes, of Lancaster, Erie county. The officers are: President, James Tillinghast; Vice President, Albert P. Laning; Secretary, William H. Grimes.

HARBOR AND RIVER IMPROVEMENTS.

A general scheme for the improvement of Buffalo Harbor was prepared by General T. J. Cram, Colonel Corps of Engineers, by orders from head-quarters, bearing date May 27th, 1868, and on the 3d of June of that year, F. Harwood, Captain Engineers, Brev. Lt. Col. U. S. A. took charge of the work. The scheme of General Cram had been submitted to the consideration of a Board of Engineers assembled in this city, January, 1868, and was, as to its general features, adopted by the Board. At a subsequent session of the same Board, at Detroit, Mich., March, 1868, a detailed consideration of the plan of construction of the new breakwater was had, and the result of the deliberations were approved. The plan, in general terms, contemplated the improvement and protection of existing piers, the extension of the south pier, and such dredging as might become necessary, between the extension of the south pier and the prolongation of the line of the north pier, to secure fourteen feet of water. Messrs. Bailey & Denny received the contract for the work. The amount estimated for improving the harbor was \$736,205.59;

the entire amount appropriated up to the present time, and of course independent of the appropriation to be made this year, is \$290,000, of which there remains to be expended about \$90,000. Last year the interior harbor works were substantially completed and 550 feet of breakwater built. This breakwater when completed will be 4,000 feet long, and will form, practically, a new harbor by affording a lee to vessels putting in under stress of weather. When completed there will be still water between it and shore while the heaviest gales are raging without, and vessels may seek its lee in all weathers. To the 550 feet built at the close of the work last season there will be added some 450 feet before the latter part of August this year, making in all 1,000 feet, or one-quarter of the entire work.

The project of a south channel is still in the future and estimates are before the authorities in Washington. Of its ultimate necessity there can be no possible doubt. The extension of the sea wall is also included in the provision of the order of May 27, 1868. The total length of this wall, if ever finished, will be 7,050 feet. Of this 5,400 feet is now built, of which 4,081 feet is now coped. It is thought by competent engineers that unless this wall is carried, at an immense expense, along the beach for about four miles to the southward of the city, until it shall reach the high ground, it will not avail to prevent the overflow due to the autumnal gales. If it should be decided to construct the proposed south cut, then it would be well to complete the sea-wall to join with its northerly embankment, thereby protecting from overflow and possible abrasion the intermediate territory and banks of the creek.

The improvements in Buffalo River, between Hamburg street and the Tol Bridge, which were commenced for the Erie Railway and Delaware & Hudson Canal Company, in June, 1869, will probably be completed as early as September, the present year. The contractors, Douglas, Gallagher & Clark, have prosecuted the work with energy, and with the fulfillment of their contract will be available to the parties interested, 2,000 feet of dockage, and 14 feet of water from the dock to the middle of the old Buffalo River bed—a distance of 100 feet. To reach this result the rock has had to be removed to an average depth of 7 feet 6 inches.

On the eastern side of the Blackwell Canal considerable enterprise has been displayed in the construction of docking, and this hitherto unpromising vicinity will soon be brought into requisition for important business uses. Messrs. Scatcherd & Belton and James Adams have some five hundred feet of dockage at this point; Richmond & Doyle, three hundred feet; E. L. Hedstrom & Meeker, four hundred feet, and other parties intend availing themselves of the opportunity to secure dock privileges.

* The average fall of rain and melted snow for eleven years past, was 37.70 inches.

JANUARY.—Four degrees colder than the average for eleven years. Snow disappeared on the 8th. Lake frozen over on the 26th.

FEBRUARY.—Warmer than the average by 3°. In the last half of the month rains and snows followed each other in rapid succession. Cherry birds reported on the 18th.

MARCH.—Unusually cold. Six degrees below the average. The last five days spring like, with frequent rains. Sleighing until the 20th. Snow disappeared on the 26th. Robins and bluebirds came on the 26th. The ice in the harbor broke up and ran out on the 29th. Pigeons flying on the 31st.

APRIL.—Mean temperature ten degrees below the April average. The advancement of vegetation much retarded. Snow fell as late as the 13th. Lake navigation obstructed by ice the entire month.

MAY.—The mean temperature lower than the average by one and one-half degrees, and the deficiency of rain one and four-tenths inches. Ice formed on plank sidewalks on the 3d, and frost on the 22d. The first steamer of the season arrived on the 2d. The ice in front of the harbor remained till the 16th. Erie Canal opened on the 6th. Orioles came on the 10th. The leaves of the horse-chestnut opened on the 15th. Cherry and peach trees in bloom the same day. The sugar maple and most of the forest trees in leaf on the 20th. Plum trees in blossom on the 20th. Leaves of the grape opening on the 22d. Apple trees in blossom on the 29th.

JUNE.—Colder than the mean for June by three and one-third degrees. The precipitation of rain was in excess of the average by two and three-fourths inches. The first strawberries grown in this county came to market on the 21st.

JULY.—Cool, dark and stormy. The mean temperature was one and six-tenths degrees lower than the July average for twelve years. Grapes were in bloom on the 8th, about twelve days later than the previous year. Strawberries were in the greatest abundance from the 5th to the 8th—two weeks late.

AUGUST.—One degree colder than the August mean for twelve years.

SEPTEMBER.—Much fine weather. Temperature was four and four-tenths degrees warmer than usual average. The ripening of fruits and backward crops much hastened.

OCTOBER.—Colder by five degrees than the average for twelve years. Last half of the month quite stormy. Eight inches of snow fell on the 26th and 27th. Much of the grape crop destroyed by freezing.

NOVEMBER.—Dark, cold and rough weather the whole month. The mean temperature was five degrees below the November average. Snow fell on ten different days, and there was but one whole and two half days of clear sky.

DECEMBER.—Dark and stormy. The temperature was one and one-half degrees higher than the December average.

BUFFALO FEMALE ACADEMY.

This institution is situated in the most eligible and delightful part of the city, and commands a beautiful view of the city, the river, and the lake. The grounds, consisting of a whole block, fronting on Delaware avenue, and extending to a charming private park in the rear, are tastefully laid out and ornamented with trees and shrubbery.

The buildings, "The Cottage" and "Goodell Hall," combine all that is desirable in arrangement and convenience. The former is built of stone, and is exclusively occupied by the family of the principal, the young ladies entrusted to his care as boarders, and the teachers of the institution boarding with the principal. The latter, "Goodell Hall," has been expressly erected for academic instruction, and for spaciousness and convenience, may well challenge comparison with any similar establishment in the country. It has abundant accommodations for four hundred pupils. Rev. A. T. Chester, Principal.

Board of Trustees—Hon. N. K. Hall, President; Rev. A. T. Chester, D. D., Secretary and Treasurer; Sam'l F. Pratt, Dennis Bowen, Noah H. Gardner, Henry W. Rogers, Bronson C. POSTAL RULES.

Many errors occur by persons not observing the following rules in depositing letters, papers or other mail matter in the office for mailing:

All Drop Letters must be prepaid by postage stamps.

Prepayment by stamps required on all transient printed matter, foreign and domestic.

By inserting the County in which the office is located, upon all the letters, many errors in superscription might be detected, and mistakes in mailing be avoided.

The following class of letters are not advertised:

Drop Letters, unless a three cent postage stamp is affixed.

Letters bearing request to be returned to writers if unclaimed.

Box Letters.

Letters directed and sent to hotels, and

thence returned to the Post Office as unclaimed, being for strangers.

Letters returned from the Dead Letter Office to writers.

Circulars, free packets, containing printed documents, speeches, and other printed matter.

All others remaining in the office are advertised on Saturday of each week. If not claimed in one month thereafter, they are then forwarded to Washington.

Buffalo Society of Natural Sciences—Organized Dec. 5, 1861; incorporated Jan. 28, 1863. The object of this Society is the promotion and study of the Natural Sciences, through the formation of a Museum and Library, the procurement of Lectures, and the use of such other means as shall be found effective. Its primary duties and objects are the collection and preservation of specimens of every vegetable and of every animated being, other than man and the domestic animals, (indigenous to Buffalo and its vicinity,) and of every rock, fossil, and mineral, of the surrounding country; to classify, arrange and make catalogues of them; to send catalogues of them to its correspondents, and to all lovers of natural science who may desire them; to observe, record and diffuse a knowledge of all facts illustrative of the nature and habits of such animals and plants; and, so far as it can, to supply the desiderata of its friends and correspondents. By a reciprocation of the services it desires to render others, as well as by such purchases as it may be able to make, and the gifts of our liberal citizens, its collection will soon represent far more than the local natural history; and it hopes and expects that its rooms will be attractive and useful to naturalists, as well as gratifying to the instructed admirers of God's wonderful works. Its rooms are located in the Young Men's Association Buildings.

The Buffalo Historical Society—The above Society was organized April 15, 1862, and its first election of officers was held May 20, 1862. Its general design is to discover, procure and preserve whatever may relate to the history of Western New York, and the city of Buffalo in particular. It will likewise aim to gather statistics of the commerce, manufactures and business of the Lake re-

gion, and those portions of the West that are intimately connected with the interests of Buffalo. For that purpose it solicits from all persons willing to contribute to the object, donations of books, pamphlets, maps, charts, manuscripts, correspondence, paintings, statuary, files of newspapers, etc., which may have historic importance, or illustrate, in any way, the facts and incidents attendant upon the early settlement and subsequent progress of Western New York and the adjacent regions. Those who are in possession of any of the above described objects of collection desired by the Society, and may not feel willing to donate or permanently part with them, are respectfully invited to deposit the same among the archives of this Society, to be reclaimed at their pleasure. No property thus deposited will be permitted to be taken from the rooms of the Society, unless with the written consent of the owner or depositor. A fire-proof depository has been secured for the use of the Society. An Annual Oration will be delivered before the Society, on the second Tuesday of January in each year, and Addresses from time to time during the year, of which public notice will be given. The monthly meetings of the Society will be held on the first Tuesday of every month.

LEGAL HOLIDAYS.

We publish by request the entire act establishing Legal Holidays. It will be seen from this that when either of the holidays named occurs on a week day, the law treats them as Sundays for all purposes connected with the payment, acceptance, or protest of bills of exchange and promissory notes. All notes maturing on such days, therefore, must be paid the day before, or, if that is Sunday, the Saturday previous. But when these holidays fall on Sunday, then the next day is also a legal holiday; but the law interposes in favor of the debtors, and allows payment of notes, etc., made after March 16, 1865, to be deferred to the Tuesday succeeding. The following is the bill passed March 18, 1865, chap. 1846:

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The act, entitled "An act to designate the holidays to be observed in the acceptance and payment of bills of exchange and promissory notes," passed April fourth, eighteen hundred and forty-nine, is hereby amended so as to read as follows:

§ 1. The following days, viz.: Any day appointed or recommended by the Governor of this State or the President of the United States, as a day of fast or thanksgiving, the fourth day of July, twenty-fifth day of December, commonly called Christmas day, the first day of January, commonly called New Year's day, and the twenty-second day of February, and when the said fourth day of July, twenty-fifth day of December, first day of January, or twenty-second day of February shall occur on Sunday, then the ensuing day thereto, shall, for all purposes whatsoever, as regards the presenting for payment or acceptance, and of the protesting and giving notice of the dishonor of bills of exchange, bank checks and promissory notes, made after the passage of this act, be treated and considered as the first day of the week, commonly called Sunday. And any bill of exchange, bank check or promissory note, made after the passage of this act which but for this act would fall due and payable on any of the days herein mentioned, shall, when said day falls on Sunday, become payable on the Tuesday next succeeding such days.

§ 2. This act shall take effect on the first day of August next.

CANCELLATION.—In all cases where an adhesive stamp is used for denoting the stamp duty upon an instrument, the person using or affixing the same must write or imprint thereupon, in ink, the initials of his name, and the date (the year, month and day) on which the same is attached or used. Each stamp should be separately canceled. When stamps are printed upon checks, etc., so that in filling up the instrument, the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and legible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described can be recognized as legal and sufficient.

PENALTIES.—A penalty of fifty dollars is imposed upon every person who makes, signs or issues, or who causes to be made, signed or issued, any paper of any kind or description whatever, or who accepts, negotiates or pays, or causes to be accepted, negotiated or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly stamped, or having thereupon an adhesive stamp for denoting the tax chargeable thereon, canceled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is im-

posed upon every person who pays, negotiates or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money, drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually canceling and obliterating the same, in the manner required by law.

Attention is particularly called to the following extract from section 155, of the act of June 30, 1864, as amended by the act of July 13, 1866:

If any person shall wilfully remove, or cause to be removed, alter or cause to be altered, the canceling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been once used, or shall knowingly or wilfully sell or buy such washed or restored stamps, or offer the same for sale, or give or expose the same to any person for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) have in his possession any washed, restored, or altered stamps, which have been removed from any vellum, parchment, paper, instrument, or writing, then, and in every such case, every person so offending, and every person knowingly and wilfully aiding, abetting or assisting in committing any such offence as aforesaid, shall, on conviction thereof, * * * be punished by a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court."

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duty chargeable on instruments.

Stamp Duty.

PROPRIETARY MEDICINES AND PREPARATIONS. For and upon every packet, box, bottle, pot, phial, or other enclosure, containing any pills, powders, tinctures, troches, lozenges, sirups, cordials, bitters, anodynes, tonics, plasters, liniments, salves, ointments, pastes, drops, waters, essences, spirits, oils, or other medicinal preparations or compositions whatsoever, sold, offered for sale, or

Exceeding twenty-five and not exceeding fifty cents.....	1	Illes, contained therein, and packed or sealed, made, prepared, and sold, or offered for sale, or removed for consumption in the United States, on and after the first day of October, 1866, when such can, bottle, or other single package, with its contents, shall not exceed two pounds in weight.....
Exceeding fifty and not exceeding seventy-five cents.....	2	
Exceeding seventy-five cents and not exceeding one dollar.....	3	For every additional pound or fractional part thereof.....
Exceeding one dollar, for every additional fifty cents, or fractional part thereof, in excess of one dollar,.....	4	
Official preparations and medicines, mixed or compounded specially for any person according to the written recipe or prescription of any physician or surgeon.....	2	28 Cigar lights and playing cards, in the hands of manufacturers and dealers, should be stamped according to the rates fixed by the law now in force. The fact that they were manufactured prior to August 1, 1866, and are stamped in accordance with the law in force at the time of manufacture, does not relieve them from payment of the increased rates by affixing additional stamps.
PERFUMERY AND COSMETICS. For and upon every packet, box, bottle, pot, phial, or other enclosure, containing any essence, extract, toilet water, cosmetic, hair-oil, pomade, hair-dressing, hair-restorative, hair-dye, tooth-wash, dentifrice, tooth-paste, aromatic cachous, or any similar articles, by whatsoever name the same herefore have been, now are, or may hereafter be called, known or distinguished, used or applied, or to be used or applied as perfumes or applications to the hair, mouth or skin, sold, offered for sale, or removed for consumption and sale, the same rates per package, etc., as for medicines and preparations.		No stamp tax is imposed upon any un compounded medicinal drug or chemicals, nor upon any medicine compounded according to the United States or other national pharmacopeia, or of which the full and proper formula is published in any of the dispensaries now or hitherto in common use among physicians or apothecaries, or in any pharmaceutical journal now issued by any incorporated college of pharmacy, unless sold or offered for sale or advertised under some other name, form, or guise than that under which they are severally denominated and laid down in such pharmacopeias, dispensaries, or journals.
FRiction MATCHES. For and upon every parcel or package of 100 or less.....	1	
More than 100 and not more than 200, For every additional 100, or fractional part thereof.....	2	
WAX TAFERS. Double the rates for friction matches.	1	
CIGAR LIGHTS. Made in part of wood, wax, glass, paper, or other materials, in parcels or packages, containing twenty-five lights or less in each parcel or package.....		
When in parcels or packages containing more than twenty-five and not more than fifty lights.....	1	
For every additional twenty-five lights, or fractional part of that number, one cent additional.	1	No stamp tax is imposed upon medicines sold to or for the use of any person, which may be mixed and compounded for said person according to the written recipe or prescription of a physician or surgeon. But all medicinal articles, whether simple or compounded by any rule, authority, or formula, published or unpublished, which are put up in a style or manner similar to that of patent or proprietary medicines in general, or advertised in newspapers or by public handbills, for popular sale and use, as having any special proprietary claim to merit, or to any peculiar advantage in mode of preparation, quality, use, or effect, whether such claim be real or pretended, are liable to the tax.
PLAYING CARDS. For and upon every pack not exceeding fifty-two cards in number, irrespective of price or value.....	2	Stamps appropriated to denote the duty charged upon articles named in the schedule cannot be used for any other purpose; nor can stamps appropriated to denote the duty upon instruments be used in payment of the duties upon articles enumerated in the schedule.
CANNED MEATS, &c. For and upon every can, bottle, or other single package containing fish, sauces, sirups, prepared mustard, jams, or jel	5	When proprietary stamps from a private die are used, if they are so affixed to the boxes, bottles, or packages that, in opening the same, or in using the contents thereof, they shall and must be unavoidably and effectually destroyed, no cancellation is necessary; but if they cannot be so affixed, they should

be canceled in the ordinary manner by writing or imprinting thereon the initials and date. When general proprietary stamps are used, they must be canceled by writing or imprinting thereon the date and the initials of the party using or affixing them.

When proprietary medicines and preparations, perfume, and cosmetics are stamped according to their retail price or value in the immediate vicinity of the place of manufacture, no additional stamps are necessary upon them, whatever may be the price at which they are offered.

Any person who offers or exposes for sale any of the articles named in the schedule, or in any of the amendments thereto, whether they are imported or of foreign or domestic manufacture, is to be deemed the manufacturer thereof, and subject to all the duties, liabilities, and penalties imposed by law in regard to the sale of domestic articles without the use of the proper stamp or stamps for denoting the tax paid thereon. The stamp tax upon such articles imported or of foreign manufacture is in addition to the import duties; but when such imported articles, except playing cards, lucifer or friction matches, cigar lights, and wax tapers, are sold in the original or unbroken packages in which the bottles or enclosures were packed by the manufacturer, no penalty is incurred for want of the proper stamp. When the packages are opened stamps should be affixed.

Violations of these stamp duties will be punished as the law directs.

THE
HYGIENIC CURE
527 and 529 SENECA ST., Buffalo, N. Y.

COMPRESSED-AIR AND TURKISH BATHS

And all appliances of a First Class Water Cure.

"HEALTH REFORM UNDERLIES EVERY OTHER REFORM."

We thank our friends and patrons for all past favors. We have been in this Cure three years, and a better record of cures performed cannot be produced than ours. Our Cure is a substantial new brick building, with large accommodations, and a full supply of Niagara water.

For twenty years we have been with the sick; we know how to appreciate thanks, and sympathize with the suffering who are far from home and former friends.

Many of our readers who are out of health and discouraged, say: "Can anything be done for me?" If you place yourselves under our care we shall add no impurities to your system, but by our various kinds of baths and treatment we remove more or less of them every day; with care and healthy diet fill their places with that which is pure. Thousands have found this a road to health when everything else has failed them. Our treatment is certainly no more unpleasant than any other mode of treatment. We do not claim, that to break up disease, and the time-honored habits which brought it on, is always as pleasant as profitable. But we do claim that the Compressed-Air Baths are the surest, safest, most invigorating and least harmful of any medical agent we have ever used; that with their use we can cure old chronic diseases in less than one-half of the time that it requires under the ordinary hygienic treatment, and with less suffering and of course much less expense.

PRICES OF BATHS

TO THOSE WHO HAVE NO PRESCRIPTION.

Compressed-Air Tonic Bath,	\$1.00

MESSRS. HOLMES HAVE PATENTED A

DUMPING WAGON

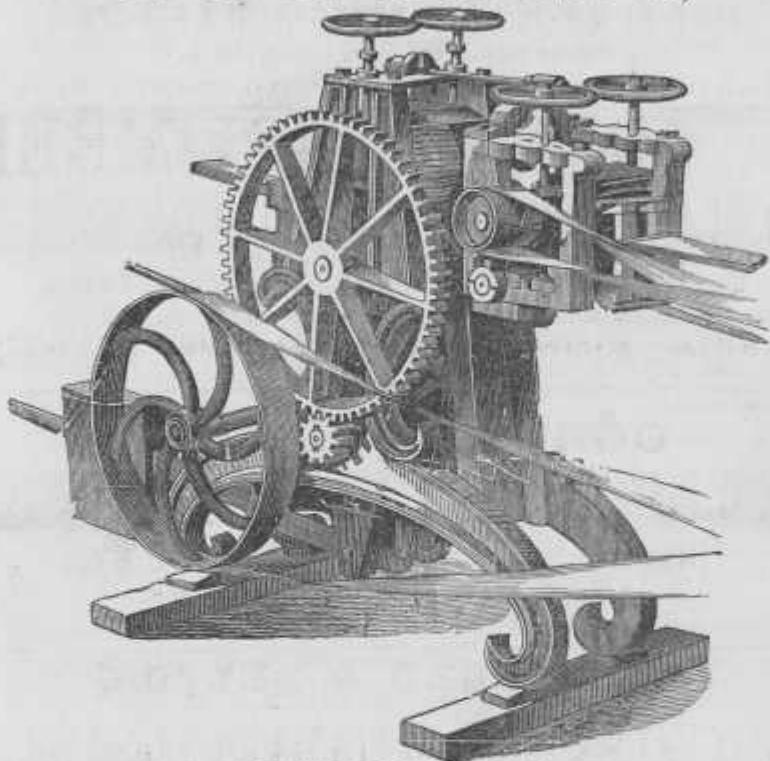

For general purposes, which exceeds even the excellent one which has been for some time before the public, and also invented by them. It dumps from the tail board, which is peculiarly arranged so that it is securely closed until the load is desired to be got rid of, which can be done with very little effort, as the load is so evenly balanced; and the wagon can be turned in a marvelously narrow road. Besides being light it is very strong. It dumps from the end, and is peculiarly fitted for coal delivery or for carrying bricks. The body is upon substantial rubber springs, and therefore peculiarly adapted for carrying coal and bricks. The latter can be dumped without violence or breakage in a solid mass in a tenth part of the time consumed in the usual method of unloading. Messrs. Holmes have just perfected this useful invention, and will put it before the public at once. They are also making a patent farm wagon of great practical utility, and economical. A wordy description of the Dumper would convey very little idea of its simplicity and completeness. But we expect to see it generally in use very shortly.—*Buffalo Morning Express.*

THE HARDEST, TOUGHEST AND MOST DURABLE TYPE IN THE WORLD.

By the completion of our new and powerful machines, we are now enabled to force a metal into type, (heretofore impossible) that will exceed in durability anything in the shape of Type now made in other places.

In case you need new Type for News or Book work, we would advise you to give us your orders and you will be convinced, what we affirm, to be a fact.

If you will let us know when you intend to renew your paper with type, and give us the size and quantity of type you use, we will hold ourselves ready to meet your wants with promptness.

You will find also at this Foundry all other articles necessary for the Printing Business.

We are agents for all the Printing Press Makers in the country.

Type from other foundries furnished.

ELECTROTYPEING.

Printers will find it to their advantage to send their forms to be Electrotyped when large numbers are to be printed from them, thereby saving their type from wear. Also Books and Pamphlets Electrotyped as low as Stereotyping. Cuts, Borders and in fact anything that needs Electrotyping.

(LATE J. FRASER & CO.)

Office, No. 5 Hollister Building, cor. Main and Seneca Streets, Buffalo,

With Branch Offices in ROCHESTER, N. Y.; NEW YORK, No. 37, Park Row; BOSTON, No. 39 Studio Building, Tremont Street, and corner of Seventh and F Streets, WASHINGTON.

These offices comprehend the practice of Patent Law with the SOLICITORS OF PATENTS in the United States and all Foreign Countries.

The LAW DEPARTMENT is conducted by EDMUND BURKE, formerly Commissioner of Patents.

The SOLICITING DEPARTMENT is conducted by FRASER & OSGOOD, who have been more than twenty years engaged in the business.

Special attention is given to Interference, Infringement, and other Patent Causes, and to the preparation of opinions on the validity of Patents.

Also, to RE-ISSUING Defective Patents, obtaining the EXTENSION of Patents granted previous to March 2, 1861, and to the prosecution of REJECTED APPLICATIONS.

In doubtful and REJECTED CASES the fees will be made to depend on success if preferred.

One member of the firm is almost constantly in Washington, to attend personally to Cases before the Patent Office.

GOLD'S PATENT STEAM FURNACE

The above cut represents a sectional view of our Heating Apparatus, as put up for use, a portion of the brick work being removed to show the boiler chamber.

For which we are Agents, and which we毫不hesitatingly pronounce the **BEST HEATING and VENTILATING APPARATUS** for Dwellings, Stores, Churches and Public Buildings in the country.

The following is one of the many testimonials in our possession:

LANCASTER, N. Y., April 2, 1870.

Messrs. IRLBACKER & DAVIS: It gives me pleasure to add my testimony in favor of your system of affording pure artificially warmed air to private dwellings. I have used parlor furnaces for three years, and stoves previous to that time. My wife, during the winter, whenever fire was lit in either stoves or furnaces, was subject to headache. Hearing, last fall, of your system, I determined to try it, and am happy to say its entire freedom from gas and dust, (the great evil of other modes,) and its pleasant, summer-like heat, has been the means of entirely relieving her of her trouble. Although economy of fuel ought not to be considered where health is concerned, still, for the information of those to whom it might be an object, I can state that twelve tons of coal have heated my entire house, and furnished all the fuel for range in kitchen last winter. I cheerfully recommend your Steam Heating Apparatus in all cases where health and comfort are of more value than the extra first cost of creation.

Yours, etc.,

WM. H. GRIMES.

CAR WHEEL WORKS

Located on Hamburgh St. Canal, corner Louisiana St.

This establishment, which has acquired a high reputation for the
EXCELLENCE OF ITS MANUFACTURES

Has been in successful operation since 1853. The facilities for

MANUFACTURING CAR WHEELS

By this firm are the very best. The works are
LARGE AND COMMODIOUS,

And built with all improvements for doing work with ease and accuracy. The Iron used
in making these Wheels is manufactured by themselves, from the

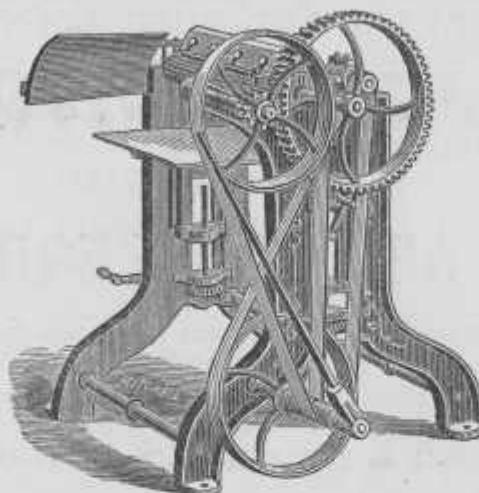

CELEBRATED SALISBURY ORES,

And made with great care and expressly designed for

C A R W H E E L S .

This Iron has a world-wide reputation for great strength and peculiar adaptation to this kind
of work. The capacity of these works is second to but one in the United States.

MANUFACTURERS OF

MORTISING, TENONING

Sash, Sticking and Molding Machines.

PLANING, TONGUING AND GROOVING MACHINES

CIRCULAR SAW ARBORS, &c.

We offer the PONEY PLANER to our customers, believing it to be the best for the price that can be found. It will plane thinner and thicker, plane more, and do it better than any other of its size or price, and at the same time, less liable to get out of order. This Planer is capable of earning itself, and pay the expense of running it in from eight to ten days. It has drawn the first prize at three different State Fairs, and has never failed to draw the highest premium when exhibited in competition with other planers. It will plane 5 inch thick, and down to less than 1-8 inch in thickness. Its extremely low price brings it within the reach of those of smaller means, and its small size, (3x3 feet,) adapts it to many small shops where a large planer could not be used; and its simplicity renders it easy to be handled by the inexperienced. We manufacture three sizes, 16, 20 and 24 inches wide. Speed of cutter head, 3500 to 4000.

Price of 16 inch,	\$100.

WESLEY CHASE'S
PATENT
Bent Hickory Standard School Furniture

Ganson Block, corner Erie and Terrace Streets.

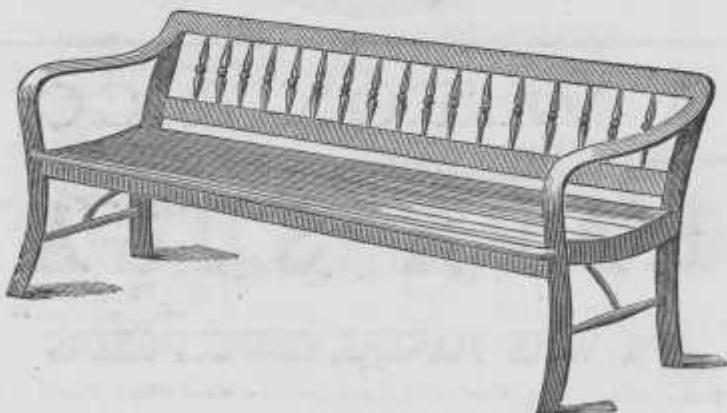

SCHOOL DESK, NO. 1. Patented March 8th, 1870.

Engraving No. 1 represents my Improved School Desk. The legs are made of hickory, steamed and bent in the desired shape, securely bolted together, and warranted to retain their form. I manufacture three sizes of Standards for the above Desks, as follows: Primary, 22 or 23 inches; Intermediate, 24 or 25 inches; and Grammar, or Higher Department, 26 or 28 inches in height at side next to the scholar. Each size can be varied to two or more, by sawing off the bottoms of the legs; the inclination of the Desk can be varied in the same manner. The tops and backs of the Desks are made of the best quality of seasoned cherry or oak, and finished in oil or varnish as desired. I will furnish the Desks complete, or will sell the Standards separately. For sizes of Tops, see Price List.

This Desk is much firmer and stronger than the iron leg Desk, it being impossible to break it by any treatment it will necessarily be subjected to either in transportation or use.

This Desk is designed to be used either with a Hinge Seat, with Chair and Pedestal, or a Stationary Seat. The cut shows my Patent Hinge Seat attached.

RAIL ROAD SETTEE, NO. 11. Patented May 18th, 1869.

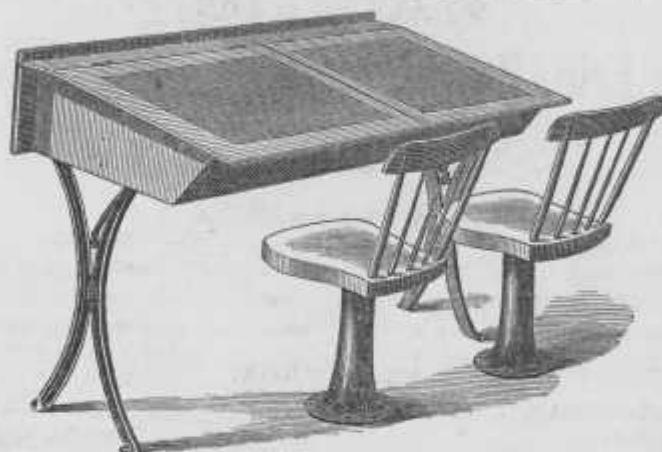

For Churches, Sabbath Schools, Lecture Rooms or Halls. Backs revolve or stationary; curved slat seat. I claim for this seat a great improvement over any other yet made, combining beauty, strength and comfort; requires no fastening to the floor. Can be arranged in circular, or any desired form. The legs and arm of each standard are formed of one piece of bent wood, consequently are very firm, and not easily broken. Length from 5 to 8 feet. Height of seat, from 14 to 17 inches.

NOTICE TO THE TRADE

CONCERNING

JOHNSON'S BUFF TINTED COPYING PAPER**CHEAPEST AND BEST PAPER.**

Circulars have been issued to the Stationery Trade, advertising our numerous customers as "unprincipled Jobbers and Dealers," and threatening them with prosecution, which are doubtless intended to intimidate them against purchasing or using.

JOHNSON'S BUFF TINTED COPYING PAPER

and have gone so far as to state that in some instances our paper has been represented to be another article, made by other parties.

We have bestowed years of labor in bringing our paper to its present perfection, and so far from having any desire to confound it with any other, have labored assiduously to preserve its identity with us.

It is our intention not to permit the trade to be intimidated in the purchase of our Paper. We are able to supply the market with a superior article, at less price than any other, and propose to do so.

If you buy any Copying Paper or Books made by us, we shall protect you against any loss by reason of prosecution or infringement upon the pretended rights of any manufacturer.

Every one of our Copying Books has pasted on the front inside cover a label, reading "JOHNSON'S BUFF TINTED COPYING PAPER." Then follow a few lines setting forth the advantages of our Paper, with directions for Copying, &c.

All our Books are done up in packages of one-quarter dozen each, with a label on the outside of package which reads, "Johnson's Buff Tinted Copying Paper, Copying Books," size, number and thickness.

Our Buff Tinted Copying Paper is done up in packages of Two Reams each, with label on the outside of each package as follows: "Johnson's Buff Tinted Copying Paper." This label also contains a list of all the sizes of Paper we manufacture, with other instructions in regard to using this Paper, &c.

We have been somewhat particular in describing the manner in which our Paper and Copying Books are sent out to the trade, so that they may more readily identify them, and understand that we do not wish to confound them with any inferior article.

EVERY PIANO FULLY WARRANTED FOR SEVEN YEARS.

PIANOS TUNED AND REPAIRED IN THE BEST MANNER.

In returning thanks for the very liberal patronage we have received during the past ten years, we call the especial attention of intending purchasers and judges of good Pianos, to the very great improvements we have lately made in the manufacture of these well known and superior instruments—among which is a combination Bridge, of a novel and peculiar construction, and for which we have received Letters Patent, the effect produced by its use being a quality of tone hitherto unknown in the best Pianos of the most celebrated makers, and far superior to the so-called uprights. These instruments stand unrivalled in regard to their singing quality, volume and purity of tone, sympathetic, elastic and even touch, and durability of construction, which enables them to remain in tune much longer than ordinary Pianos. Purchasers will find them fully twenty per cent. lower than those of other first-class makers, and for actual wear, worth half a dozen of the so-called cheap Pianos.

OLD PIANOS TAKEN IN EXCHANGE.

NEW AND SECOND HAND PIANOS RENTED WITH PRIVILEGE OF PURCHASE.

HOLLY MANUFACTURING CO.

LOCKPORT, N. Y.

MANUFACTURERS OF THE

HOLLY WATER WORKS and FIRE HYDRANTS

FOR CITIES AND VILLAGES.

Also, Hand and Power Pumps, including Piston, Elliptical, Rotary and Centrifugal, in great variety, for Air, Gas, Water, Pulp, Acids, Alkalies, and Liquors of all kinds.

THE HOLLY SYSTEM OF WATER SUPPLY AND FIRE PROTECTION, supplies an urgent and well-nigh universal demand of communities. Since Mr. Holly invented and constructed the first experimental set of Works, and put them in operation in Lockport, N. Y., the System has been successively introduced into the following places, viz.: Auburn, N. Y.; Covington, N. Y.; Minneapolis, Minn.; Vergennes, Vt.; Ogdensburg, N. Y.; Binghamton, N. Y.; Peoria, Ill.; Batavia, N. Y.; Kalamazoo, Mich.; Canton, O.; Marquette, Mich.; Dayton, O.; Connersville, Ind. It has also been adopted in Covington, Ky.; Columbus, O.; Indianapolis, Ind.; Jackson, Mich.; and Norwalk, O. A large number of other Cities and Villages are in negotiation with the Holly Company for these Improved Water Works.

Reference is made to any or all of the above named places. Descriptive Pamphlets will be sent on application.

ADVANTAGES OF THE HOLLY SYSTEM.

Great strength and power of the machinery. Saving of valuable time in applying water for extinguishing fires, in sufficient quantity and unceasing flow. Each Hydrant is an equivalent for a steam fire engine. The severity of winter weather does not interfere with their efficient operation. Comparative economy in cost of construction, in that they dispense with reservoirs or stand-pipes. Dispenses entirely with the use of steam and hand fire engines. Reduce rates of insurance, 25 to 50 per cent. Affords abundant supply of water for domestic use, as well as for fire protection.

It was clearly demonstrated last night that the distance did not make any difference with the force and volume. Two splendid streams were put upon the flames, which soon died down. IT WAS REMARKED LAST NIGHT, THAT BINGHAMTON WOULD NOT SELL HER RIGHT TO THESE WORKS FOR A MILLION DOLLARS, and she would not.—*Binghamton Democrat*, March, 1868.

CITY OF OGDENSBURG, N. Y., MAYOR'S OFFICE, January 28, 1869.

* * * * * WE SHALL HAVE NO USE FOR OUR STEAM FIRE ENGINES.

Yours truly,

W. C. BROWN, Mayor.

JOHN B. JERVIS, Esq., whose engineering skill in the construction of the Croton Water Works in New York, and the Cochituate in Boston, have given him a world-wide reputation, is now a resident of the village of Rome, N. Y., and the question of Water Works being under consideration, he was appointed one of a committee to examine and report upon the Holly Works of Auburn. From his report we make the following extracts.

* * * * * The peculiarity of those works is, that the supply of water is direct from the pump without a reservoir. * * * * * Those in charge of the Works, speak well of the success of their pump, and I COULD SEE NO FAULT IN ITS CURRENT ACTION. THERE CAN BE NO DOUBT THE AUBURN PLAN WORKS EFFICIENTLY. The testimony of all that I conversed with was, that the PLAN HAD WORKED SATISFACTORILY.

The water is thrown by the pumps worked in the pump house, and is just as efficient to a stream, according to its powers, as a steam fire engine, and MORE READILY APPLIED.

Humblest, your obedient servant,

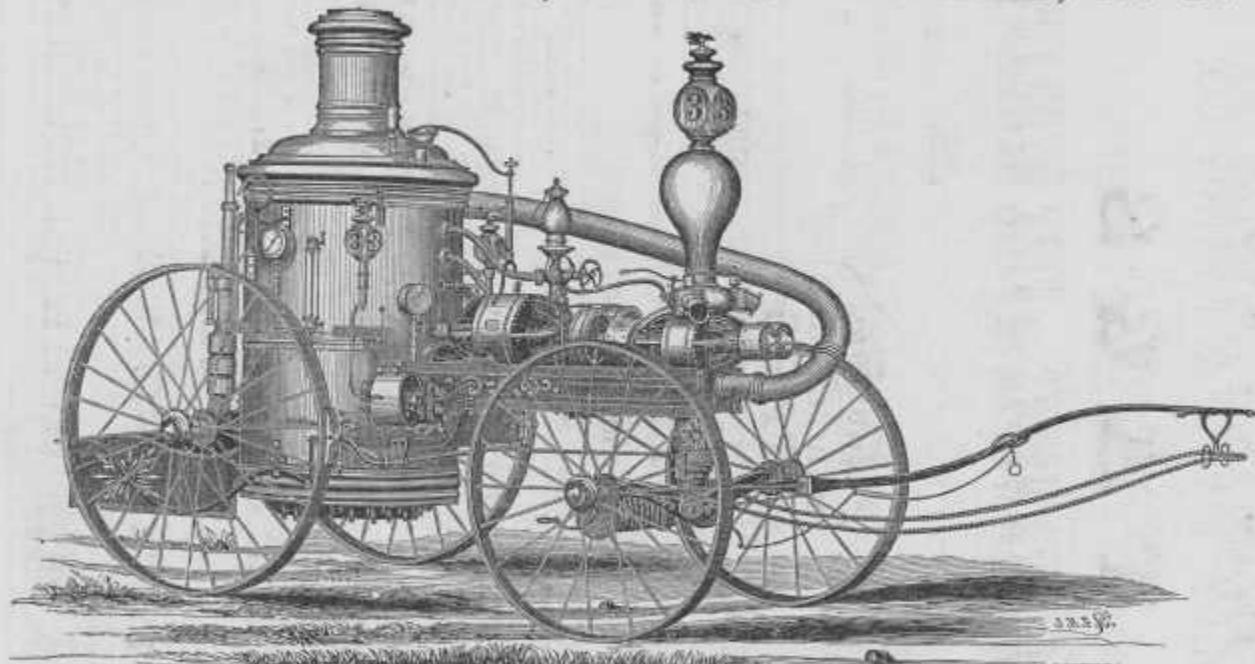

JOHN B. JERVIS.

From the report of Thomas C. Keefer, Esq., (under whose skillful direction the Reservoir Water Works of Montreal, Toronto and Hamilton were constructed,) to the City of Ottawa, Ontario, May 13th, 1869.

The "Holly System" is exclusively a pumping one, and CONSPICUOUS FOR ITS ECONOMY. "For the speedy extinction of fires, NOTHING CAN EQUAL THE HIGH PRESSURE HYDRANTS, from which, as soon as a hose can be attached, a ceaseless stream is poured on the flames, confining them to the place of origin. * * * * * The fire is extinguished before the proofs of the intended incendiaries are destroyed, and the prepared and saturated combustibles are thus revealed."

"Mr. Holly, by his ingenious and economical arrangement, has done invaluable service to many towns, and by his rendering all kinds of fire engines unnecessary, WILL DOUBTLESS CREATE A REVOLUTION IN THE EXISTING SYSTEM OF WATER WORKS, THROUGHOUT THE UNITED STATES."

STEEL PEN WORKS

WARRINGTON & CO.

N. W. COR. TWELFTH AND BUTTONWOOD STREETS, PHILADELPHIA, PA.

We respectfully inform all those interested in the STEEL PEN Trade, that our thorough knowledge of Pen Making, acquired by more than twenty years' experience in European Pen Factories, including the celebrated establishments of Joseph Gillott, and Hinks and Wells, Birmingham, and Blanzy Peure & Co., France, enables us to offer a line of Pens that in point of finish and superior writing qualities, are unrivaled.

Our regular line of Pens embraces all the favorite patterns now in use, to which we are constantly adding new and attractive styles.

The Trade will be promptly supplied upon the most favorable terms, either from stock on hand or Pens made to order, stamped and labeled with any name desired, and put up as customers may direct, without extra charge. Confident of our ability to give satisfaction, and respectfully soliciting a share of your patronage,

We remain, yours truly,

HYMNS AND TUNES

FOR

Church, Sabbath School and Social Worship

I.

Songs for the Sanctuary. By Rev. C. S. ROBINSON, . . . \$2.50

The most popular modern music book. Both hymns and tunes are pronounced unrivaled in point of taste, freshness, and availability. This book has never been rejected by any church, when put upon a fair trial, in point of merit, with any other published. Separate editions for Presbyterian, Congregational and Baptist churches.

II.

Songs for Christian Worship. By Rev. C. S. ROBINSON, \$1.50

An abridged edition of "Songs for the Sanctuary," with all its great features, and most of the best hymns and tunes. For the Lecture-room, and congregations desiring a less expensive work.

III.

Hymns of the Church. By Rev. Drs. EDDY, THOMPSON, and VERMILYE, assisted by U. C. BURNAP, Esq., . . . \$2.75

This work deserves the title of "a magnificent compilation" of the richest classics in church music—in many respects the "Greatorex" of congregational singing. Adopted in June, 1869, by the Synod of the Reformed Church in America, for all churches of that denomination.

IV.

The Plymouth Collection. By H. WARD BEECHER, . . . \$2.50

The inspiration of the finest congregational music in the world, at Plymouth Church. Separate editions for Congregational and Baptist Churches. Over 75,000 copies have been sold.

V.

Episcopal Common Praise. By Rev. GEO. E. THRALL, . . . \$2.75

The psalms, hymns, chants, and all musical exercises of the Book of Common Prayer set to appropriate music. Although but recently published, already highly approved and adopted by Rev. S. H. Tyng, Jr., and others.

VI.

Sabbath Carols. By THEODORE E. PERKINS, \$0.35

New hymns and tunes of the best Sabbath School quality, and amply sustaining the high reputation of this popular editor and composer.

VII.

Mount Zion Collection. By THEODORE E. PERKINS, \$1.25

A choice variety of new and attractive music for choirs, singing-schools, musical associations, and the fireside.

VIII.

Christian Melodies. By Rev. GEO. B. CHEEVER, \$1.00

Standard hymns and tunes for the lecture-room and family circle.

Sample Copies sent by Mail, post-paid, on receipt of price. To Pastors, Choeisters, and Superintendents, for examination with view to introduction, one-third off. A liberal discount on the first supply.

COOGAN'S PATENT

Chair and Furniture Tip

We desire to call your attention to the **Rubber Chair and Furniture Tip**, as illustrated above, and would briefly set forth its uses and advantages.

It renders a chair perfectly noiseless—obviating that harsh, disagreeable sound which now invariably grates upon the ear in all places where there is a wood, stone, or oil-cloth floor. The TIP is, therefore, a desideratum in hotel dining rooms, restaurants, public halls, churches, offices, steamboat decks, sick chambers, etc.

It makes an ordinary chair springy, and almost as comfortable as a rocking chair.

The elastic surface of the RUBBER TIP, instead of the hard wood of a chair leg, coming into contact with the floor, the wear and tear of carpets, oil-cloths, matting, etc., is greatly diminished.

The TIP will render a chair almost indestructible; for a chair cannot be tilted to any angle, where the rubber will not touch the floor, and consequently, all strain upon the frame, caused by "leaning back," is completely counteracted.

These TIPS are now used in the Patent Office and Treasury Buildings in Washington, and are being rapidly introduced in the leading hotels, and in the houses of many of the residents of our large cities.

AND

ENGRAVING IN ALL ITS BRANCHES.

Having one of the largest and most complete Engraving and Designing Establishments in the United States, we beg leave to say that we shall be happy to give Estimates for all kinds of Illustrations for Books, Periodicals, etc. Designs furnished by the best Artists.

Guaranteeing satisfaction, quality, price and prompt execution, we respectfully request your patronage.

From The New York Herald, Sept. 27th, 1869.

The portraits which have recently appeared in *Appleton's Journal*, and attracted so much attention on account of the exquisite manner in which they are engraved, are the work of Mr. Edward Sears, the engraver, of Beekman street in this city. This artist is one of the ablest in the United States, and in some respects, probably, has no equal. The portraits in question are remarkable for the perfection with which they delineate the features and expression of the countenance. The

same artist engravés frequently for Harper & Brothers and other publishers, and all his work is marked by the same general excellence. There is nothing more important in our book literature than the illustrations. A few years ago we were woefully deficient in engravers; now American book engravings will compare favorably with anything done on the Continent of Europe.

BUFFALO CITY DIRECTORY

FOR THE YEAR 1870.

ABBREVIATIONS.

In the pages following, *h.* stands for house; *b.* for boards; *w.* for with; *ave.* for avenue; *cor.* for corner; *opp.* for opposite; *wid.* for widow; *lab.* for laborer; *ab.* for above; *bel.* for below; *bet.* for between; *n.* for near; *r.* for rear; *carp.* for carpenter; *N. S. E. W.* for north, south, east and west; *N. Div.* for North Division; *S. Div.* for South Division; *Exch.* for Exchange; *Wash.* for Washington; *Com'l* for Commercial; and the abbreviations of the States for streets of similar names. The word *street* is implied.

It will be noticed that the names and residences of all members of a firm are in a smaller type, directly under the name of the firm. This, it will be understood, does not interfere with the regular insertion of the same names in their alphabetical order.

MUTUAL
Life Insurance Company
OF BOSTON.

ALL POLICIES NON-FORFEITABLE AFTER ONE PAYMENT

and are kept in force by the State law of Massachusetts, twice as long as by Companies of other States.

The JOHN HANCOCK is the only Company in the United States that has paid Policies that became Claims, after the insured had failed to pay his premiums.

The JOHN HANCOCK has paid its Policy Holders seven annual dividends or one for every year of its business.

Instead of waiting four or five years, all Policies have a dividend which may be used to reduce the second annual premium.

It is Purely Mutual, all the Profits being divided among the Assured.

It pays all its Losses promptly, never having contested a claim.

Its Policies are all non-forfeitable, by Massachusetts State legislation. The Companies of other States do not offer the same or equivalent security.

It allows the assured to surrender his Policy should he desire, at any time, the Company paying its value in cash, or giving a liberal paid-up Policy therefor. This important feature will commend itself to all.

For further particulars call at the office, 447 Main street.

L. M. BEAM, General Agent.

Assets, December 31, 1869,.....	3,500,102.80

THE CONTINENTAL thus closes and crowns the year 1869 with a record of which any Company might well be proud; and now, bearing the palm and prestige of unequalled success, and in view of the following important changes and improvements in our plan of doing business, which have recently been made, we enter upon 1870 with yet brighter auspices than have marked the opening of any previous year.

Dividends to Policy Holders will hereafter be made on the "Contribution Plan."

The Stockholders having become convinced that the welfare of the Company and its Policy holders require it, have unanimously consented that, in future, **DIVIDENDS UPON STOCK SHALL BE LIMITED TO SEVEN PER CENT.**, legal interest, thus making the CONTINENTAL a

MUTUAL COMPANY.

Special attention is directed to those important improvements, as evincing conclusively the determination of the officers to leave nothing undone which may add to the advantages already possessed by the CONTINENTAL.

JEROME PIERCE,
MANUFACTURER OF
**Shingle, Heading, Stave and Saw Mill
MACHINERY,**

Self-Feeding, Self-Tilting Self-Dogging.
Saws from 3,000 to 5,000 per Hour.

Patented April 17th, 1866.

MY AUTOMATIC TWO-BLOCK MILL.

THIS is a new machine which I unhesitatingly present to the public as the *best Two Block Mill* in use. It is constructed entirely of iron and steel, and in a simple and durable manner. The advantages of this machine are: the LARGE QUANTITY OF WORK turned out, its QUALITY, and the SAVING OF LABOR,—one man tending it easily. The machine is so constructed that when one block is being sawed the other is receding, ELEVATED ABOVE THE SAW, which is done by the tracks upon which the carriage runs being raised and lowered by a simple arrangement not liable to get out of order.

The advantages are, that the saw will run LONGER WITHOUT REFILING, as the saw comes in contact with the block only when cutting. The block not coming in contact when receding, the upper side of the saw is dulled no faster than the lower, a desideratum not accomplished in any other machine. Any one will readily see that the saw will run much longer before refiling, and also avoid making clipped shingles as in other machines, where one side of the saw becomes duller than the other. It has the advantage of other two block mills in using 40 inch saws instead of 36, and the carriage consequently requiring less distance to travel to cut the same width shingle.

It has the self-acting tilting table operated by the movement of the carriage, and by raising the paul you make as many shingles as you please one way, if desired.

Awarded the Silver Medal at the Ohio State Fair, Toledo, 1868. Awarded the Silver Medal at the Michigan State Fair, Detroit, 1868. Awarded the Highest Premium at International Industrial Exhibition, Buffalo, N.Y., 1869.

I also manufacture Automatic One Block Shingle Machines, Hand Feed Single Block Shingle Machines, Wheel Jointers, Saw Jointers, Bolting Machines, Drag Saws, Wood Splitters, Wood Saw Tables, and Saw Mill Machinery, with the latest improvements.

J. H. RICHARDSON,

Wood Engraver

No. 58 ANN STREET, NEAR WILLIAM.

ESTABLISHED IN NEW YORK CITY, 1844.

ENGRAVING ON WOOD,

Which has of late been brought to great perfection. The boldness and brilliancy of its effects, delicacy of finish, its economy, the facility of duplicating Wood Cuts by the Electrotyping process; without injury to the cuts, and its general adaptation to business purposes—give it advantages over all other styles and methods of Engraving or Illustrating.

BOOK AND NEWSPAPER ILLUSTRATIONS,

Landscapes, Portraits, Animals, Architectural Views, Fashion Plates, Machinery, Newspaper Heads, Magazine Covers, Views of Buildings, Society Seals, Agricultural Implements, Bill Heads, Labels, Stamps, Business Cards, etc.

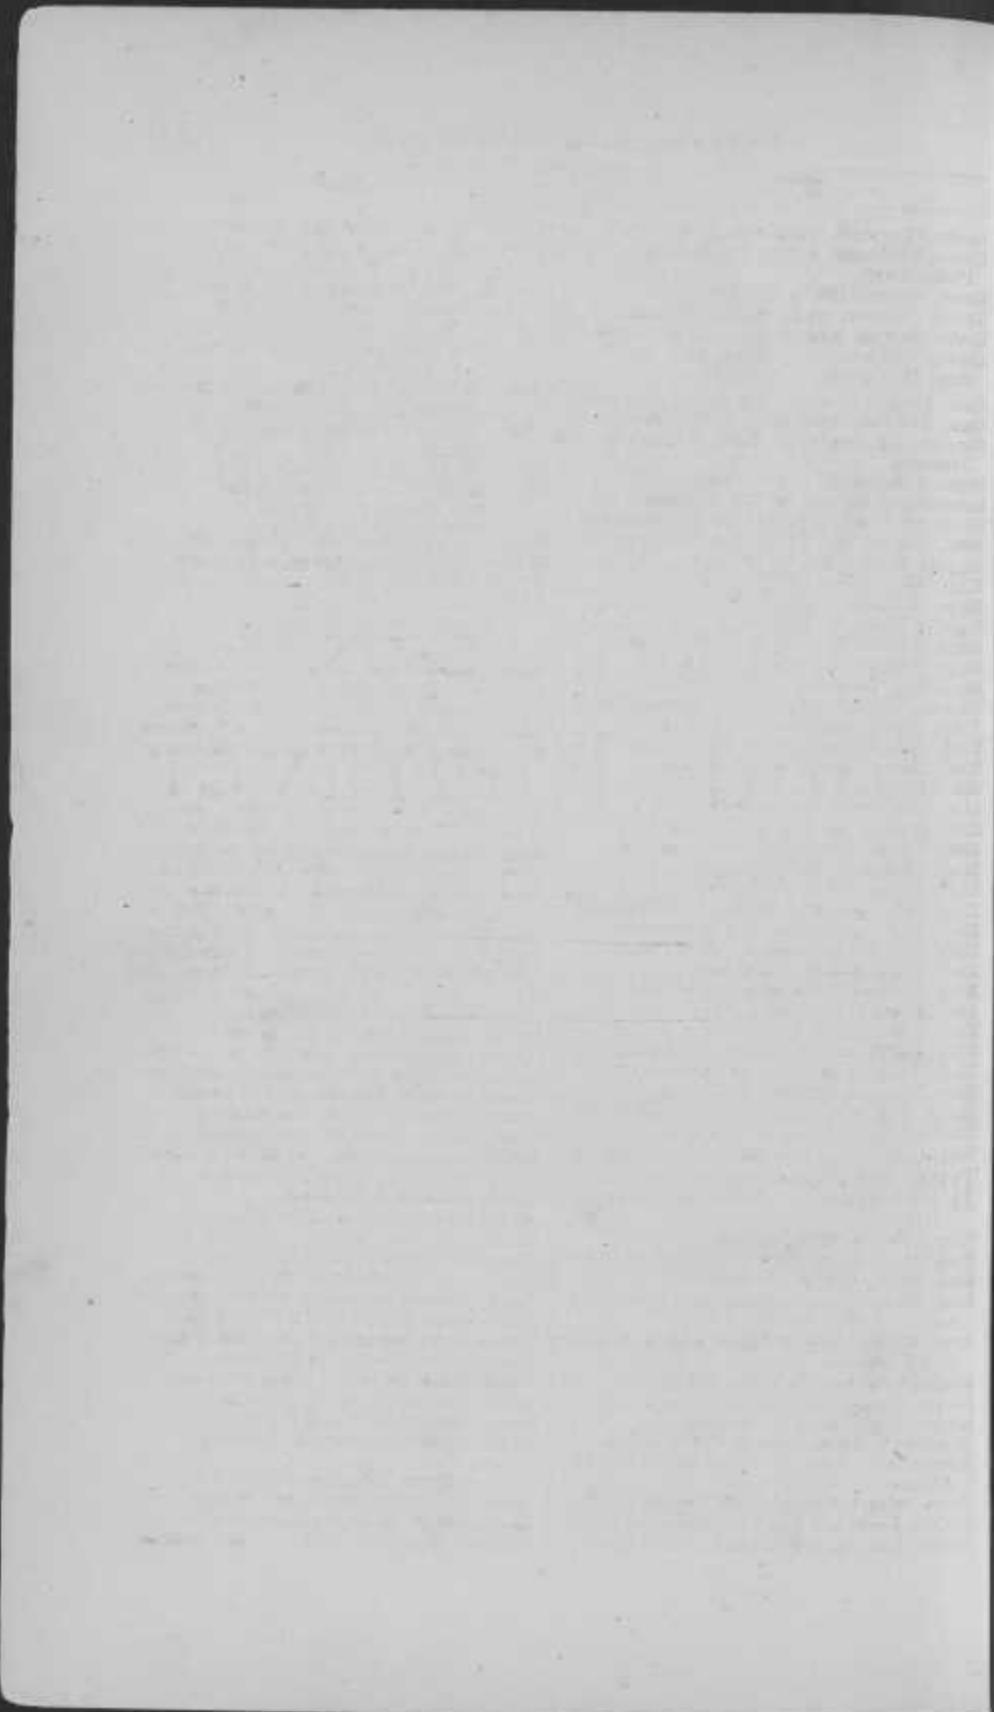

ORNAMENTAL DESIGNS AND ENGRAVINGS,

For Plain Printing or in Colors, from a Sixteen Sheet Poster to the most minute Book Illustration.

Persons at a distance wanting Views of Buildings, Machinery, Portraits, or any other object, can have prompt and satisfactory attention paid to their orders, by sending ambrotypes or sketches of the objects by express or mail, and SATISFACTION GUARANTEED.

WOOD CUTS,

Suitable for Circuses, Menageries, Ethiopian Performers, Gymnasts, Magicians, etc., IN ONE OR MORE COLORS, GOT UP AT SHORT NOTICE.

IN THEIR PRICES

in accordance with the decline in the premium on gold, and consequent decreased cost of imported articles used in the manufacture of Pianofortes. In addition to their established styles of Pianofortes, STEINWAY & SONS, in order to meet a long-felt and frequently-expressed want by persons of moderate means, teachers, schools, etc., have perfected arrangements for the manufacture of an entirely new style of instrument, termed

THE "SCHOOL" PIANO,

a thoroughly complete instrument of seven octaves, precisely the same in size, scale, interior mechanism and workmanship, as their highest priced 7-octave Pianos, the only difference being that this new style of instrument is constructed in a perfectly plain yet exceedingly neat exterior case. These new instruments will be supplied to those who desire to possess a thoroughly first-class "Steinway Piano," yet are limited in means,

AT EXCEEDINGLY MODERATE PRICES.

STEINWAY & SONS also desire to call special attention to their new

PATENT UPRIGHT PIANOS

with double Iron Frame, Patent Resonator, Tubular Frame Action, and new Soft Pedal, which are matchless in volume and quality of tone, and surpassing facility of action, whilst standing longer in tune and being more impervious to atmospheric influences than any other Piano at present manufactured.

Price Lists and Illustrated Catalogues mailed free on application.

EVERY PIANO IS WARRANTED FOR FIVE YEARS.

Warerooms, First Floor of Steinway Hall,

Nos. 109 and 111 E. Fourteenth st., (bet. Fourth ave. and Irving Place,) New York.
